Use case UC01 View news

Description

Anyone wishes to view the news. He or she select the “News” option in the main menu.

Access

Not authenticated: Main Menu -> News -> All

Tests

Test 01	
Description	Access to the news list from the main menu. Check that there is 9 category buttons and they work well.
Expected	The system must show a list with all the news stored in the system. When a category button is selected, only the news in that category will be shown
Outcome	*everything is shown correctly, I can navigate by type of news without problem*
Notes	

Test 02	
Description	Access to the news list from the main menu and display some news. Check that the “go back” button works.
Expected	The system must show all the details of the new, and the “go back” button should redirect to the welcome page.
Outcome	*Works as expected*
Notes	

Test 03	
Description	Access to the news browser (“Search news” in the navigation bar) and search for news. Leave it empty the first time. Then, search for “Hackeo Telefónica”, there should be only one result.
Expected	Searching without any input should return all the news, search for “Hackeo Telefónica” should return only one new with that title.
Outcome	*the searcher shows the news that was expected*
Notes	

Use case UC02 View events

Description

Anyone wishes to view the events. He or she select the “Events” option in the main menu.

Access

Not authenticated: Main Menu -> Events -> All

Tests

Test 01	
Description	Access to the event list from the main menu. Check that there are 5 columns and the go back button work well.
Expected	The system must show a list with all the events stored in the system. When the go back button is pressed, you should be redirected to the welcome page.
Outcome	*the list looks good, but I don't know if the return button refers to one I don't see or to the browser's own.*
Notes	

Test 02	
Description	Access to the event list from the main menu and display any event. Check that.
Expected	The system must show at least two tables with the event information. The “go back” button should redirect to the event list.
Outcome	*Works as expected*
Notes	

Use case UC03 Register as a User

Description

Anyone wishes to register to the system as a user. He or she select the option in the main menu and fills the form with his or her information.

Access

Not authenticated: Main Menu -> Register -> As a User.

Tests

Test 01	
Description	Left the form empty, accept the terms and press the save button.
Expected	The system must show an error next to the mandatory fields.
Outcome	*the required fields are shown in red as follows*
Notes	If I don't accept the terms first, I only get the terms in red.

Test 02	
Description	Properly fill the form but do not accept the terms of service and press the save button
Expected	The system must show an error about the terms of service.
Outcome	*it works properly*
Notes	

Test 03	
Description	Properly fill the form and press the save button. Then log in as the new user.
Expected	The system must register the new user and he or she must be able to log in.
Outcome	*Allows me to log in without problems*
Notes	

Use case UC04 Register as a Journalist

Description

Anyone wishes to register to the system as a journalist. He or she select the option in the main menu and fills the form with his or her information.

Access

Not authenticated: Main Menu -> Registration -> As a Journalist.

Tests

Test 01	
Description	Left the form empty, accept the terms and press the save button.
Expected	The system must show an error next to the mandatory fields.
Outcome	*the required fields are shown in red as follows*
Notes	If I don't accept the terms first, I only get the terms in red.

Test 02	
Description	Properly fill the form but do not accept the terms of service and press the save button
Expected	The system must show an error about the terms of service.
Outcome	*it works properly*
Notes	*it warns me that I lack the terms to accept*

Test 03	
Description	Properly fill the form and press the save button. Then log in as the new user.
Expected	The system must register the new journalist and he or she must be able to log in.
Outcome	*Allows me to log in without problems*
Notes	

Use case UC05 Register as a Moderator

Description

Anyone wishes to register to the system as a moderator. He or she select the option in the main menu and fills the form with his or her information.

Access

Not authenticated: Main Menu -> Registration -> As a Moderator.

Tests

Test 01	
Description	Left the form empty, accept the terms and press the save button.
Expected	The system must show an error next to the mandatory fields.
Outcome	*the required fields are shown in red as follows*
Notes	If I don't accept the terms first, I only get the terms in red.

Test 02	
Description	Properly fill the form but do not accept the terms of service and press the save button
Expected	The system must show an error about the terms of service.
Outcome	*it works properly*
Notes	*it warns me that I must accept the terms.*

Test 03	
Description	Properly fill the form and press the save button. Then log in as the new user.
Expected	The system must register the new moderator and he or she must be able to log in.
Outcome	*it works properly*
Notes	

Use case UC06 Display user profile

Description

A user wishes to view his or her profile. He or she select the option in the main menu.

Access

Authenticated as a user: Main Menu -> Profile -> Display.

To access as a user, use the credentials usuario1/usuario1

Tests

Test 01	
Description	Access to the profile display, check that the information is correct.
Expected	The system must show the username, name, surnames and email of the user (usuario1 should be in all fields if logged with the given credentials). The “Go back button” redirect to the welcome page.
Outcome	*Shows me the information correctly*
Notes	

Use case UC07 Edit user profile

Description

A user wishes to edit his or her profile. He or she select the option in the main menu.

Access

Authenticated as a user: Main Menu -> Profile -> Edit.

To access as a user, use the credentials usuario1/usuario1

Tests

Test 01	
Description	Access to the edit profile view, press the “Go back” button.
Expected	The system must show a form with three fields: name, surnames and email. In addition, there should be four buttons: go back, save, export and delete. The “Go back” button redirect to the welcome page.
Outcome	*it works as expected*
Notes	

Test 02	
Description	Access to the edit view, leave empty all the fields and press save.
Expected	The system must show an error next to all fields.
Outcome	*it works correctly, it doesn't let me save with empty fields*
Notes	

Test 03	
Description	Properly edit the form and press the save button. Then access again to the view, press “export information” and, finally, press the “delete” button.
Expected	The system must save the edited attributes. When the “export information” button is pressed, the system generates a PDF with the user data. When the “delete” button is pressed, the system log the user out, and he or she cannot log in again. All the comments written by the user will be displayed by the system under the name “Desconocido”.
Outcome	*He won't let me delete the account, he says "Oops! You don't have access to this resource." And he won't delete the account.*
Notes	

Use case UC08 Change user status

Description

A user wishes to change his or her status. He or she select the option in the main menu and changes it with his or her points.

Access

Authenticated as a user: Main Menu -> Profile -> Change status.

To access as a user, use the credentials usuario1/usuario1.

Tests

Test 01	
Description	Access to the change status view, press the “Ascend” button.
Expected	The system must show the current status of the user (it should be “PRINCIPIANTE” if logged as usuario1), the cost to ascend to veteran and master, and the profits of the ranks. When the ascend button is pressed, the status and status icon changes.
Outcome	*Works properly without any problems*
Notes	

Use case UC09 List upcoming raffles

Description

A user wishes to view the upcoming raffles. He or she select the option in the main menu.

Access

Authenticated as a user: Main Menu -> Raffles -> Upcoming raffles.

To access as a user, use the credentials usuario1/usuario1.

Tests

Test 01	
Description	Access to the upcoming raffles view. Press “Sign up” on all the raffles.
Expected	The system must show a list with the upcoming raffles ordered by date. The list has seven columns, the last contains a button to participate in the raffle. When the “Sign up” button is pressed, if you are not yet in the raffle, the system will show the message “Success”. If the user is already participating, the system tells the user with another message.
Outcome	*Allows you to list and subscribe correctly*
Notes	The subscribe button appears in all rows not only in the last one

Use case UC10 List user raffles

Description

A user wishes to view the raffles he or she is in. He or she select the option “Your raffles” in the main menu.

Access

Authenticated as a user: Main Menu -> Raffles -> Your raffles.

To access as a user, use the credentials usuario1/usuario1.

Tests

Test 01	
Description	Access to “your raffles” view.
Expected	The system must show a list with the user’s raffles. The list has six columns, all dates in the “Ends” column are future dates.
Outcome	*Works correctly*
Notes	

Use case UC11 Configure user finder

Description

A user wishes to configure his or her finder. He or she select the option in the main menu and fills the filters he or she wants to use.

Access

Authenticated as a user: Main Menu -> Finder -> Configure.

To access as a user, use the credentials usuario1/usuario1.

Tests

Test 01	
Description	Access to “Configure finder” view. Change the filters several times to search for different news.
Expected	The system must show a list with the news that meet the conditions.
Outcome	*Search the right way*
Notes	

Test 02	
Description	While the filters are not empty, press the clear button.
Expected	The system must show a list with all the news in the system, when the user access to the finder’s configuration view, its fields are all empty.
Outcome	*Runs correctly and empties all filter fields*
Notes	

Use case UC12 Follow user

Description

A user wishes to follow another user. He or she select the option in the main menu and selects the users.

Access

Authenticated as a user: Main Menu -> Social -> Follow users.

To access as a user, use the credentials usuario1/usuario1.

Tests

Test 01	
Description	Follow some users.
Expected	The users selected to follow disappear from the list of users that the user is not following, they will appear in a different list above.
Outcome	*We can see a bug as it shows two contradictory messages saying that we do not follow anyone and that we follow all users. Also does not show any list*
Notes	Do not repopulate the database, this action will be used later.

Use case UC13 Follow journalists

Description

A user wishes to follow a journalist. He or she select the option in the main menu and selects the journalist.

Access

Authenticated as a user: Main Menu -> Social -> Follow journalists.

To access as a user, use the credentials usuario1/usuario1.

Tests

Test 01	
Description	Follow some journalists.
Expected	The journalists selected to follow disappear from the list of journalists that the user is not following, they will appear in a different list above.
Outcome	*We can see a bug because it shows two contradictory messages that you are not following any journalist yet and that you are following all journalists. It also doesn't show any list*
Notes	

Use case UC14 RSS

Description

A user wishes to view the news shared by the users and journalists he or she follows. He or she select the option in the main menu.

Access

Authenticated as a user: Main Menu -> Social -> RSS.

To access as a user, use the credentials usuario1/usuario1.

Tests

Test 01	
Description	Access to the list.
Expected	The system must display a list with three columns.
Outcome	*This is a bug because no list is shown because as we saw in the previous test we could not follow anyone.*
Notes	

Use case UC15 Send new

Description

A user wishes to send a new to a user he or she follows. He or she displays the new and press the "send" button, then, he or she selects the recipient.

Access

Authenticated as a user: Main Menu -> News -> All -> Display -> Send.
(You have to follow any user in order to send a new)

To access as a user, use the credentials usuario1/usuario1.

Tests

Test 01	
Description	Display a new and send it to any user that the user logged in follows.
Expected	The system redirects to the welcome page.
Outcome	*Works as expected*
Notes	Do not repopulate the database, the next test uses this action.

Use case UC16 View received new

Description

A user wishes to view the news he or she has received. He or selects the option from the main menu.

Access

Authenticated as a user: Main Menu -> Social -> Received news.

To access as a user, use the credentials usuario1/usuario1.

Tests

Test 01	
Description	Access as the user you send the new in the previous test. (all usernames/passwords are usuarioX/usuarioX).
Expected	The system shows the new sent in the previous test.
Outcome	*Works as expected*
Notes	

Use case UC17 User share news

Description

A user wishes to share news. He or press the “share” button when browsing news.

Access

Authenticated as a user: Main Menu -> News -> All -> Share.

To access as a user, use the credentials usuario1/usuario1.

Tests

Test 01	
Description	Share some news.
Expected	The system shows a list with all the news you are sharing. A message will be shown below indicating that the operation succeeded or if you were already sharing that new.
Outcome	*Works as expected*
Notes	

Use case UC18 User comment news

Description

A user wishes to comment on news. He or she displays any new and writes a comment.

Access

Authenticated as a user: Main Menu -> News -> All -> Display -> Comment.

To access as a user, use the credentials usuario1/usuario1.

Tests

Test 01	
Description	Comment on a new, leave the form empty and press save.
Expected	The system does not create the comment, errors appears next the fields.
Outcome	*Works as expected*
Notes	

Test 02	
Description	Comment on a new, write anything and press save, then, display the new again.
Expected	The system does create the comment, it appears when the new is displayed.
Outcome	*The comment hasn't been created*
Notes	

Use case UC19 User report news

Description

A user wishes to report any new. He or she displays the new and writes a report.

Access

Authenticated as a user: Main Menu -> News -> All -> Display -> Report.

To access as a user, use the credentials usuario1/usuario1.

Tests

Test 01	
Description	Report a new, leave the form empty and press save.
Expected	The system does not create the report, an error appears next the field.
Outcome	*Works as expected.*
Notes	

Test 02	
Description	Report a new, write anything and press save.
Expected	The system does create the report and redirects to the reported new.
Outcome	*Works as expected.*
Notes	

Use case UC20 Display journalist profile

Description

A journalist wishes to view his or her profile. He or she select the option in the main menu.

Access

Authenticated as a user: Main Menu -> Profile -> Display.

To access as a user, use the credentials periodista1/periodista1

Tests

Test 01	
Description	Access to the profile display, check that the information is correct.
Expected	The system must show the picture, name, surnames and email of the journalist. The “Go back button” redirect to the welcome page.
Outcome	*The table doesn’t have the “Email” header*
Notes	

Use case UC21 Edit journalist profile

Description

A journalist wishes to edit his or her profile. He or she select the option in the main menu.

Access

Authenticated as a user: Main Menu -> Profile -> Edit.

To access as a journalist, use the credentials periodista1/periodista1

Tests

Test 01	
Description	Access to the edit profile view, press the “Go back” button.
Expected	The system must show a form with five fields: name, surnames, image, email and paypal email. In addition, there should be four buttons: go back, save, export and delete. The “Go back” button redirect to the welcome page.
Outcome	*Works as expected.*
Notes	

Test 02	
Description	Access to the edit view, leave empty all the fields and press save.
Expected	The system must show an error next to all fields except image.
Outcome	*Works as expected*
Notes	

Test 03	
Description	Properly edit the form and press the save button. Then access again to the view, press “export information” and, finally, press the “delete” button.
Expected	The system must save the edited attributes. When the “export information” button is pressed, the system generates a PDF with the user data. When the “delete” button is pressed, the system log the user out, and he or she cannot log in again. All the news created by the journalist will be displayed by the system under the name “Desconocido”.
Outcome	*After I saved the data, I logged out and when I tried to log in with the same user I noticed the credentials had changed without I changing them (the password changes by itself).* *Exports properly.* *When I tried to delete it said I didn’t have permissions.*
Notes	

Use case UC22 List journalist news

Description

A journalist wishes to view his or her news. He or she select the option in the main menu.

Access

Authenticated as a user: Main Menu -> Journalist -> My news.

To access as a journalist, use the credentials periodista1/periodista1

Tests

Test 01	
Description	Access to the list of news, press the “Display” button.
Expected	The system must show a table with six columns. When the display button is pressed the new is shown.
Outcome	It looks good news except that in the first of the list does not load an image Notes	I think the back button should take us to the previous list view.

Use case UC23 Delete journalist new

Description

A journalist wishes to delete one of his or her news. He or she access to his or her news and deletes it.

Access

Authenticated as a user: Main Menu -> Journalist -> My news -> Delete.

To access as a journalist, use the credentials periodista1/periodista1

Tests

Test 01	
Description	Access to the news list, press “Delete” on any new.
Expected	The system must delete the new, it will disappear from the list.
Outcome	Notes	Works as expected.

Use case UC24 Create new

Description

A journalist wishes to create a news. He or she access to his or her news and creates another one.

Access

Authenticated as a user: Main Menu -> Journalist -> My news -> Create.

To access as a journalist, use the credentials periodista1/periodista1

Tests

Test 01	
Description	Access to the create form, press “Go back”.
Expected	The system must redirect to your news
Outcome	Worked as expected.
Notes	None

Test 02	
Description	Access to the create form, do not fill any field, press “Save”.
Expected	The system shows two errors on the title and description fields.
Outcome	Works fine Notes	None

Test 03	
Description	Access to the create form, fill all fields, but do not insert an URL on the video or image field, press “Save”.
Expected	The system shows an error next to the field, “Invalid URL”.
Outcome	**Here is a bug, the system let you safe without any problem**

	Notes	

Test 04	
Description	Properly fill the form and press the save button.
Expected	The system must save the new new. It will appear in your news.
Outcome	It works properly Notes	The way of inserting the video is very unintuitive, you could enter by code the section "/embed/".

Use case UC25 List all journalist

Description

A journalist wishes to list all the journalist on the system. He or she access to the view pressing the option in the main menu.

Access

Authenticated as a user: Main Menu -> Journalist -> List of journalists.

To access as a journalist, use the credentials periodista1/periodista1

Tests

Test 01	
Description	Access to the list.
Expected	The system shows a table with five columns. The information displayed is coherent.
Outcome	Works fine.  **List of Journalist with Agencies** 5 items found, displaying all items. 1 **Name:** / **Surname:** / **Wallet** / **Agency** periodista1Nombre / periodista1Apellidos / paypalCorreoPeriodista1@gmail.com / tituloAgencia1 periodista2Nombre / periodista2Apellidos / paypalCorreoPeriodista2@gmail.com / tituloAgencia1 periodista3Nombre / periodista3Apellidos / paypalCorreoPeriodista3@gmail.com / tituloAgencia3 periodista4Nombre / periodista4Apellidos / paypalCorreoPeriodista4@gmail.com periodista5Nombre / periodista5Apellidos / paypalCorreoPeriodista5@gmail.com
Notes	

Use case UC26 Withdraw money

Description

A journalist wishes to withdraw his or her money. He or she access to the view pressing the option in the main menu and withdraws the money.

Access

Authenticated as a user: Main Menu -> Withdraw money.

To access as a journalist, use the credentials periodista1/periodista1

Tests

Test 01	
Description	Access to the view, press the “Withdraw money” two times.
Expected	The system shows your accumulated money and the total money that the journalist has earned, when the button is pressed the second time appears a message because you cannot withdraw more money.
Outcome	It works well and I have also tried to withdraw money again but I could not because it has a minimum amount established.
Notes	

Use case UC27 Subscribe/leave agency

Description

A journalist wishes to subscribe an agency or leave it. He or she access to the view pressing the option in the main menu and selects the agency.

Access

Authenticated as a user: Main Menu -> Agency -> Subscribe.

To access as a journalist, use the credentials periodista1/periodista1

Tests

<table>
<tr><th colspan="2">Test 01</th></tr>
<tr><td>Description</td><td>Access to the view, try subscribing to two agency and then leave it.</td></tr>
<tr><td>Expected</td><td>The system shows all the agencies with capacity and, below, your agency. When you try to subscribe while already in an agency, an error is displayed below. When the journalist leaves the agency, you can subscribe to another.</td></tr>
<tr><td>Outcome</td><td>List of all not full Agencias
2 items found, displaying all items.
1
<table><tr><th>Title</th><th>Address</th><th>Capacity</th><th>Tax</th><th></th></tr><tr><td>tituloAgencia2</td><td>direccionAgencia2</td><td>3</td><td>3.2</td><td>Suscribe</td></tr><tr><td>tituloAgencia3</td><td>direccionAgencia3</td><td>1</td><td>4.2</td><td>Suscribe</td></tr></table>One item found.

Use case UC28 Edit moderator profile

Description

A moderator wishes to edit his or her profile. He or she select the option in the main menu.

Access

Authenticated as a user: Main Menu -> Profile -> Edit.

To access as a moderator, use the credentials moderador1/moderador1

Tests

Test 01	
Description	Access to the edit profile view, press the “Go back” button.
Expected	The system must show a form with four fields: name, surname, email and PayPal email. In addition, there should be four buttons: go back, save, export and delete. The “Go back” button redirect to the welcome page.
Outcome	*Correct*
Notes	

Test 02	
Description	Access to the edit view, leave empty all the fields and press save.
Expected	The system must show an error next to all fields.
Outcome	*Correct*
Notes	

Test 03	
Description	Properly edit the form and press the save button. Then access again to the view, press “export information” and, finally, press the “delete” button.
Expected	The system must save the edited attributes. When the “export information” button is pressed, the system generates a PDF with the user data. When the “delete” button is pressed, the system log the user out, and he or she cannot log in again.
Outcome	*The moderator hasn´t permiss to access to the delete profile view* Notes	

Use case UC29 Ban news

Description

A moderator wishes to ban one or more news. He or she select the option in the main menu and ban the news.

Access

Authenticated as a user: Main Menu -> Moderator -> Ban news.

To access as a moderator, use the credentials moderador1/moderador1

Tests

Test 01	
Description	Access to the ban news view, display the report of any new and ban it, then, search for it in the list of all news.
Expected	The system must show a table with all news with three or more reports, when a new is banned, it does not appear along the other news.
Outcome	*Work as expected!*
Notes	At first login I have a problem, with permissions, then work good!

Use case UC30 Ban/Unban users

Description

A moderator wishes to ban or unban a user. He or she select the option in the main menu and ban the user.

Access

Authenticated as a user: Main Menu -> Moderator -> Ban/unban users.

To access as a moderator, use the credentials moderador1/moderador1

Tests

Test 01	
Description	Access to the ban users view, ban some users. Then, unban some users.
Expected	The system must show two tables, one for the banned users and another for the not banned. When any user is banned or unbanned, the tables are updated.
Outcome	*Work as expected!*
Notes	

Use case UC31 Ban/Unban journalists

Description

A moderator wishes to ban or unban a journalist. He or she select the option in the main menu and ban the journalist.

Access

Authenticated as a user: Main Menu -> Moderator -> Ban/unban journalists.

To access as a moderator, use the credentials moderador1/moderador1

Tests

Test 01	
Description	Access to the ban journalists view, ban some journalists. Then, unban some.
Expected	The system must show two tables, one for the banned users and another for the not banned. When any journalist is banned or unbanned, the tables are updated.
Outcome	*Work as expected!*
Notes	

Use case UC32 Accept/Deny news

Description

A moderator wishes to accept or deny pending news. He or she select the option in the main menu and decide on the news.

Access

Authenticated as a user: Main Menu -> Moderator -> Pending news.

To access as a moderator, use the credentials moderador1/moderador1

Tests

Test 01	
Description	Access to the pending news view, accept one and deny one. Then, search for the accepted one in the list of news.
Expected	The system must show a table with the pending news. The moderator has three options: display (to decide on it), accept (It will appear to all users from now on) or deny it (it will not appear).
Outcome	*Work as expected!*
Notes	

Use case UC33 Moderator withdraw money

Description

A moderator wishes to withdraw his or her money. He or she access to the view pressing the option in the main menu and withdraws the money.

Access

Authenticated as a user: Main Menu -> Moderator -> Withdraw money.

To access as a moderator, use the credentials moderador1/moderador1

Tests

Test 01	
Description	Access to the view, press the “Withdraw money” two times.
Expected	The system shows your accumulated money and the total money that the moderator has earned, when the button is pressed the second time appears a message because you cannot withdraw more money.
Outcome	*Work as expected!*
Notes	

Use case UC34 Administrator manage administrators

Description
