**Test <#002>****Description**

A user registers himself/herself as a client successfully, giving the following data

### Edit Personal Data

Username	<input type="text" value="cliente10"/>
Password	<input type="password" value="*****"/>
Confirm password	<input type="password" value="*****"/>
Name	<input type="text" value="cliente10"/>
Surname	<input type="text" value="cliente10"/>
Middle name	<input type="text" value="cliente10"/>
Email	<input type="text" value="cliente10@gmail.com"/>
Phone	<input type="text" value="1234567"/>
Address	<input type="text" value="cliente10"/>
Photo	<input type="text" value="https://cliente10"/>
Credit card	
Holder name	<input type="text" value="cliente10"/>
Make	<input type="text" value="VISA"/> 
Number	<input type="text" value="1111222233334444"/>
Expiration month	<input type="text" value="12"/>
Expiration year	<input type="text" value="2020"/>
CVV code	<input type="text" value="200"/>
I accept the terms and conditions <input checked="" type="checkbox"/>	

Where the “password” and “confirm password” fields are both “cliente10”

**Expected**

The user is registered successfully. We can log in the system using the new user. Also, a prefix has been added to the phone number.

**Outcome**

Incorrect, the system does not register the user, instead, an error message appears. “Cannot commit the operation”. The values inserted are the same as in the expected picture.

**Notes**

Test <#003>	
Description	A user tries to register himself/herself as a company using a blank form
Expected	<p>The form shows the following errors</p> <div> <h3>Edit Personal Data</h3> <p>Username <input type="text"/> Size must be from 5 to 32</p> <p>Password <input type="password"/> Size must be from 5 to 32</p> <p>Confirm password <input type="password"/> Size must be from 5 to 32</p> <p>Name <input type="text"/> Must not be blank</p> <p>Surname <input type="text"/> Must not be blank</p> <p>Middle name <input type="text"/></p> <p>Email <input type="text"/> Does not match pattern Must not be blank</p> <p>Phone <input type="text"/></p> <p>Address <input type="text"/></p> <p>Photo <input type="text"/></p> <p>Business name <input type="text"/> Must not be blank</p> <p>VAT number <input type="text"/> Does not match pattern</p> <p>I accept the terms and conditions <input type="checkbox"/> You must accept the terms and conditions</p> </div>
Outcome	Correct, the system does as expected.
Notes	

Test <#004>	
<b>Description</b>	<p>A user registers himself/herself as a company successfully, giving the following data</p>  <p>Where the “password” and “confirm password” fields are both “compania10”</p>
<b>Expected</b>	The user is registered successfully. We can log in the system using the new user. Also, a prefix has been added to the phone number.
<b>Outcome</b>	Correct, the system does as expected.
<b>Notes</b>	

## Use case UC8-2 List companies (C-Level)

### Description

An actor who is not authenticated must be able to list the companies and navigate to their published insurances.

### Access

We can list the companies in the option “LIST COMPANIES” available in the menu.

We can access to the companies’ insurances using the option “List insurances” available in the table of companies.

Tests

Test <#001>

Description

Expected

A user lists the companies in the system

The following companies are displayed

List companies

3 items found, displaying all items.

1

Name	Surname	VAT number	
Aseguradora Adeslas	Sociedad Limitada	ESF25464267	<a href="#">List insurances</a>

## Use case UC9-2 Edit personal data (C-Level)

### Description

An actor who is authenticated must be able to edit his/her personal data.

### Access

After we use the “LOGIN” option available in the menu, and we log in the system, we access to the option “Edit personal data” available in the drop-down option “PROFILE” in the menu.

## Tests

Test <#001>	
Description	A company sends a blank form for edit their data. Logged with the credentials "company1/company1" we send a blank form
Expected	<p>The form displays the following errors</p> <div><h3>Edit Personal Data</h3><p>Username <input type="text"/> Size must be from 5 to 32</p><p>Password <input type="password"/> Size must be from 5 to 32</p><p>Confirm password <input type="password"/> Size must be from 5 to 32</p><p>Name <input type="text"/> Must not be blank</p><p>Surname <input type="text"/> Must not be blank</p><p>Middle name <input type="text"/></p><p>Email <input type="text"/> Does not match pattern</p><p>Must not be blank</p><p>Phone <input type="text"/></p><p>Address <input type="text"/></p><p>Photo <input type="text"/></p><p>Business name <input type="text"/> Must not be blank</p><p>VAT number <input type="text"/> Does not match pattern</p></div>
Outcome	Correct, the system does as expected. But the text in the header is in Spanish despite which language is selected.
Notes	

**Test <#002>****Description**

A company edits their data successfully. Logged with the credentials “company1/company1” we send a form with the following data.

### Edit Personal Data

Username	<input type="text" value="bestcompany"/>
Password	<input type="password" value="••••••••"/>
Confirm password	<input type="password" value="••••••••"/>
Name	<input type="text" value="bestcompany"/>
Surname	<input type="text" value="bestcompany"/>
Middle name	<input type="text" value="bestcompany"/>
Email	<input type="text" value="bestcompany@gmail.com"/>
Phone	<input type="text" value="1234567"/>
Address	<input type="text" value="bestcompany"/>
Photo	<input type="text" value="https://bestcompany"/>
Business name	<input type="text" value="bestcompany"/>
VAT number	<input type="text" value="ESF12345678"/>

The password that appears in the form is “bestcompany”.

**Expected**

After we send the form, we have to access to the form again and verify the data has been saved correctly, save the password that appear as blank when we access to the form. We also have to verify that a phone prefix has been added to the phone number.

**Outcome**

Correct, the system does as expected.

**Notes**

**Test <#003>****Description**

A client sends a blank form for edit their data. Logged with the credentials “client1/client1” we send a blank form

**Expected**

The form displays the following errors

**Edit Personal Data**

Username  Size must be from 5 to 32

Password  Size must be from 5 to 32

Confirm password  Size must be from 5 to 32

Name  Must not be blank

Surname  Must not be blank

Middle name

Email  Does not match pattern

Must not be blank

Phone

Address

Photo

Credit card

Holder name  Must not be blank

Male  Must not be blank

Number  Invalid credit card number

Too small (min = 0)

Expiration month  Must be a number

Your credit card has already expired

Expiration year  Must be a number

Your credit card has already expired

CVV code  Must be a number

**Outcome**

Correct, the system does as expected.

**Notes**

**Test <#004>****Description**

A client edits their data successfully. Logged with the credentials "client1/client1" we send a form with the following data.

**Edit Personal Data**

Username

Password

Confirm password

Name

Surname

Middle name

Email

Phone

Address

Photo

Credit card

Holder name

Make

Number

Expiration month

Expiration year

CVV code

The password that appears in the form is "bestclient".

**Expected**

After we send the form, we have to access to the form again and verify the data has been saved correctly, save the password that appear as blank when we access to the form.

**Outcome**

Correct, the system does as expected.

**Notes**

Test <#005>	
Description	A sponsor sends a blank form for edit their data. Logged with the credentials "sponsor1/sponsor1" we send a blank form
Expected	<p>The form displays the following errors</p> <div> <h2>Edit Personal Data</h2> <div> <div>Username <input type="text"/></div> <div>Size must be from 5 to 32</div> </div> <div> <div>Password <input type="text"/></div> <div>Size must be from 5 to 32</div> </div> <div> <div>Confirm password <input type="text"/></div> <div>Size must be from 5 to 32</div> </div> <div> <div>Name <input type="text"/></div> <div>Must not be blank</div> </div> <div> <div>Surname <input type="text"/></div> <div>Must not be blank</div> </div> <div> <div>Middle name <input type="text"/></div> </div> <div> <div>Email <input type="text"/></div> <div>Does not match pattern</div> <div>Must not be blank</div> </div> <div> <div>Phone <input type="text"/></div> </div> <div> <div>Address <input type="text"/></div> </div> <div> <div>Photo <input type="text"/></div> </div> </div>

**Test <#006>****Description**

A sponsor edits their data successfully. Logged with the credentials “sponsor1/sponsor1” we send a form with the following data.

## Edit Personal Data

Username	<input type="text" value="bestsponsor"/>
Password	<input type="password" value="bestsponsor"/>
Confirm password	<input type="password" value="bestsponsor"/>
Name	<input type="text" value="bestsponsor"/>
Surname	<input type="text" value="bestsponsor"/>
Middle name	<input type="text" value="bestsponsor"/>
Email	<input type="text" value="bestsponsor@gmail.com"/>
Phone	<input type="text" value="+34(688)6656"/>
Address	<input type="text" value="bestsponsor"/>
Photo	<input type="text" value="https://bestsponsor"/>

The password that appears in the form is “bestsponsor”.

**Expected**

After we send the form, we have to access to the form again and verify the data has been saved correctly, save the password that appear as blank when we access to the form.

**Outcome**

Correct, the system does as expected.

**Notes**

Test <#007>	
Description	A administrator sends a blank form for edit their data. Logged with the credentials "admin1/admin1" we send a blank form.
Expected	<p>The form displays the following errors</p>  <p><b>Edit Personal Data</b></p> <p>Username <input type="text"/> Size must be from 5 to 32</p> <p>Password <input type="text"/> Size must be from 5 to 32</p> <p>Confirm password <input type="text"/> Size must be from 5 to 32</p> <p>Name <input type="text"/> Must not be blank</p> <p>Surname <input type="text"/> Must not be blank</p> <p>Middle name <input type="text"/></p> <p>Email <input type="text"/> Must not be blank</p> <p>Does not match pattern</p> <p>Phone <input type="text"/></p> <p>Address <input type="text"/></p> <p>Photo <input type="text"/></p>
Outcome	Correct, the system does as expected.
Notes	

**Test <#008>****Description**

A administrator edits their data successfully. Logged with the credentials “admin1/admin1” we send a form with the following data.

## Edit Personal Data

Username bestadministrator

Password .....

Confirm password .....

Name bestadministrator

Surname bestadministrator

Middle name bestadministrator

Email bestadministrator@|

Phone +34(655)1234

Address bestadministrator

Photo https://bestadministrator

The password that appears in the form is “bestadministrator”.

**Expected**

After we send the form, we have to access to the form again and verify the data has been saved correctly, save the password that appear as blank when we access to the form.

**Outcome**

Correct, the system does as expected.

**Notes**

Test <#009>	
Description	A worker sends a blank form for edit their data. Logged with the credentials “worker1/worker1” we send a blank form.
Expected	<p>The form displays the following errors</p> <div> <h2>Edit Personal Data</h2> <div> <div>Username <input type="text"/> Size must be from 5 to 32</div> <div>Password <input type="password"/> Size must be from 5 to 32</div> <div>Confirm password <input type="password"/> Size must be from 5 to 32</div> <div>Name <input type="text"/> Must not be blank</div> <div>Surname <input type="text"/> Must not be blank</div> <div>Middle name <input type="text"/></div> <div>Email <input type="text"/> Must not be blank</div> <div>Does not match pattern</div> <div>Phone <input type="text"/></div> <div>Address <input type="text"/></div> <div>Photo <input type="text"/></div> </div> </div>
Outcome	Correct, the system does as expected.
Notes	

**Test <#010>****Description**

A worker edits their data successfully. Logged with the credentials “worker1/worker1” we send a form with the following data.

## Edit Personal Data

Username

Password

Confirm password

Name

Surname

Middle name

Address

Photo

The password that appears in the form is “bestworker”.

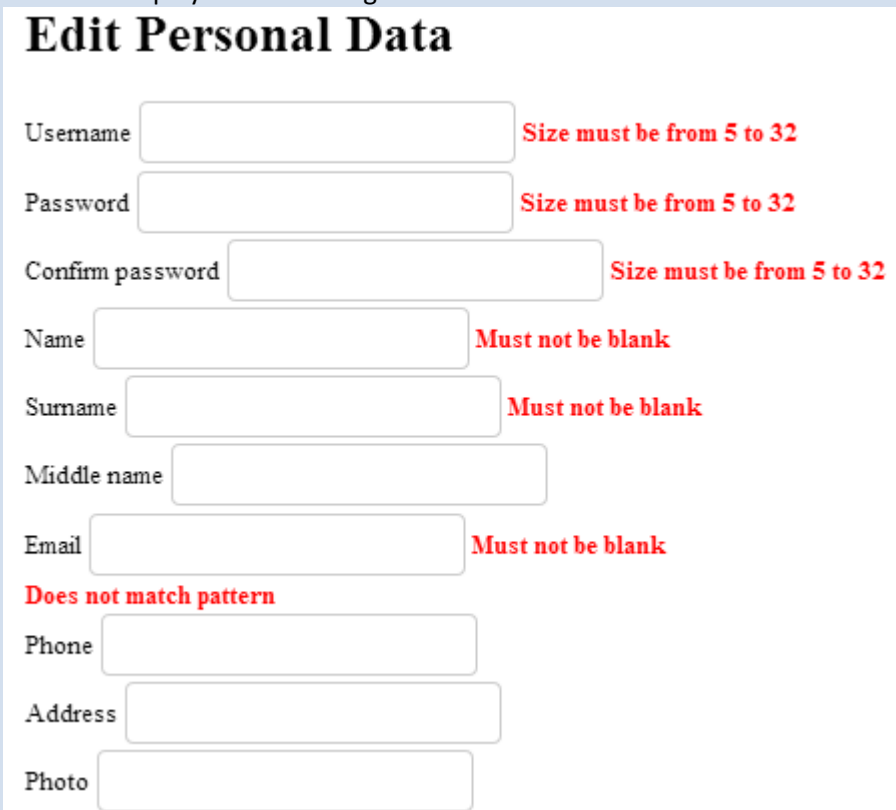

**Expected**

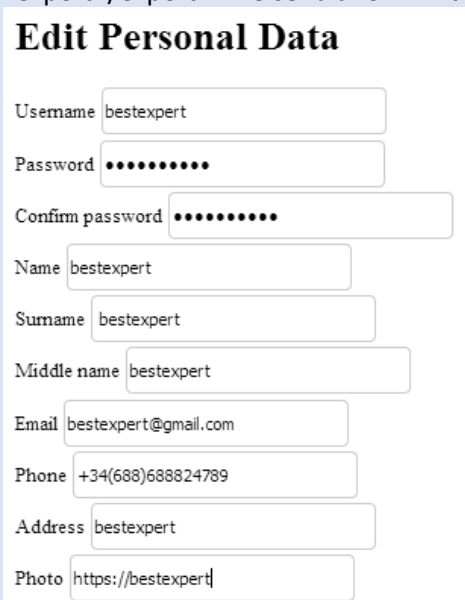

After we send the form, we have to access to the form again and verify the data has been saved correctly, save the password that appear as blank when we access to the form. We also have to verify that a phone prefix has been added to the phone number.

**Outcome**

Correct, the system does as expected.

**Notes**

Test <#011>	
Description	A expert sends a blank form for edit their data. Logged with the credentials “expert1/expert1” we send a blank form.
Expected	<p>The form displays the following errors</p>  <p><b>Edit Personal Data</b></p> <p>Username <input type="text"/> Size must be from 5 to 32</p> <p>Password <input type="password"/> Size must be from 5 to 32</p> <p>Confirm password <input type="password"/> Size must be from 5 to 32</p> <p>Name <input type="text"/> Must not be blank</p> <p>Surname <input type="text"/> Must not be blank</p> <p>Middle name <input type="text"/></p> <p>Email <input type="text"/> Must not be blank</p> <p>Does not match pattern</p> <p>Phone <input type="text"/></p> <p>Address <input type="text"/></p> <p>Photo <input type="text"/></p>
Outcome	Correct, the system does as expected.
Notes	

Test <#012>	
Description	<p>A expert edits their data successfully. Logged with the credentials “expert1/expert1” we send a form with the following data.</p>  <p><b>Edit Personal Data</b></p> <p>Username <input type="text"/> bestexpert</p> <p>Password <input type="password"/> bestexpert</p> <p>Confirm password <input type="password"/> bestexpert</p> <p>Name <input type="text"/> bestexpert</p> <p>Surname <input type="text"/> bestexpert</p> <p>Middle name <input type="text"/> bestexpert</p> <p>Email <input type="text"/> bestexpert@gmail.com</p> <p>Phone <input type="text"/> +34(688)688824789</p> <p>Address <input type="text"/> bestexpert</p> <p>Photo <input type="text"/> https://bestexpert</p>
	The password that appears in the form is “bestexpert”.

Expected	After we send the form, we have to access to the form again and verify the data has been saved correctly, save the password that appear as blank when we access to the form.
Outcome	Correct, the system does as expected.
Notes	

## Use case UC9-3 Messages management (C-Level)

### Description

An actor who is authenticated must be able to exchange messages with other actors and manage them.

### Access

After we use the “LOGIN” option available in the menu, and we log in the system, we access to the drop-down menu in the option with an envelop icon.

Then, we can list our messages by clicking the “List messages” option. We can display the message clicking the “Show” link in the list. We also can delete the message clicking the “Delete” link in the list.

We can send a message clicking the “Send message” option.

If we are authenticated as an administrator, we can send a broadcast message by selecting the “Broadcast message” option.

### Outcome

Correct, the system does as expected.

### Notes

### Test <#002>

#### Description

An actor displays one of his/her messages. We log in the system using the credentials "admin1/admin1", then we list our messages. Then, we show the message with subject "Hola".

#### Expected

The following view

	<h2>Show mensajes</h2> <p><b>Sending moment:</b> 28/06/2018</p> <p><b>Subject:</b> Hola</p> <p><b>Body:</b> Hola</p> <p><b>Tags:</b> Hola que tal</p> <p><b>Sender:</b> Artuto Aguilar</p> <p><b>Receiver:</b> Juan Manuel De la Oliva Aguilar</p> <p>List message</p>
Outcome	Correct, the system does as expected.
Notes	

Test <#003>	
Description	An actor tries to send a blank message. We log in the system using the credentials "admin1/admin1", then we try to send a message with all the fields blank.
Expected	<p>The following errors</p> <div> <h3>Send message</h3> <p>Subject <input type="text"/> Must not be blank</p> <p>Body <input type="text"/> Must not be blank</p> <p>Receiver ---- <input type="button" value="v"/> The message must have a receiver</p> <p>Tags <input type="text"/></p> </div>
Outcome	Correct, the system does as expected.
Notes	

Test <#004>	
Description	<p>An actor sends a message successfully. We log in the system using the credentials “admin1/admin1”, then we send a message with the following data.</p> <div> <h3>Send message</h3> <p>Subject <input type="text" value="The best message ever"/></p> <p>Body <input type="text" value="A good message "/></p> <p>Receiver <input type="text" value="Adolfo"/> ▼</p> <p>Tags <input type="text" value="BEST"/></p> </div> <p>Then, we list our messages</p>
Expected	The new message appears in the list of messages.
Outcome	Correct, the system does as expected.
Notes	

Test <#005>	
Description	An actor deletes one of his/her messages. We log in the system using the credentials “admin1/admin1”, then we list our messages. Then, we delete the message with subject “Hola”.
Expected	The message is deleted an it’s not listed in the list of messages.
Outcome	Correct, the system does as expected.
Notes	

Test <#006>	
Description	<p>An actor sends a spam message successfully.We log in the system using the credentials “admin1/admin1”, then we send a message with the following data.</p> <div> <h3>Send message</h3> <p>Subject <input type="text" value="Wanna sex"/></p> <p>Body <input type="text" value="Wanna sex"/></p> <p>Receiver <input type="text" value="Adolfo"/> ▼</p> <p>Tags <input type="text" value="HELLO "/></p> </div> <p>Then, we list our messages and we show the message we have sented.</p>
Expected	<p>The spam message is highlighted in red in both list and display, like in the examples. They also have a “(SPAM)” tag.</p> <p>The list</p>

	<b>List messages</b>					
	7 items found, displaying 6 to 7. [First/Prev] 1, 2 [Next/Last]					
	<b>Sending moment</b>	<b>Subject</b>	<b>Body</b>	<b>Sender</b>	<b>Receiver</b>	<b>Tags</b>
25/01/2018	Petición	Quiero solicitar que desbanean a mi amigo el cliente 1 ,no se volvera a repetir ,le entro un virus , lo sentimos..	Daniel NoMas	Juan Manuel De la Oliva Aguilar	Virus	<a href="#">Show</a> <a href="#">Delete</a>
31/05/2019	Wanna sex	Wanna sex	Juan Manuel De la Oliva Aguilar	Adolfo Martinez	HELLO,(SPAM)	<a href="#">Show</a> <a href="#">Delete</a>
<b>The display</b>						
<div> <h2>Show mensajes</h2> <div> <p><b>Sending moment:</b> 31/05/2019</p> <p><b>Subject:</b> Wanna sex</p> <p><b>Body:</b> Wanna sex</p> <p><b>Tags:</b> HELLO,(SPAM)</p> <p><b>Sender:</b> Juan Manuel De la Oliva Aguilar</p> <p><b>Receiver:</b> Adolfo Martinez</p> </div> <div>List message</div> </div>						
<b>Outcome</b>	The system does save the message as expected. It is highlighted in red in the list, but not in the display.					
	<div> <h2>Show mensajes</h2> <p><b>Sending moment:</b> 03/06/2019</p> <p><b>Subject:</b> Wanna sex</p> <p><b>Body:</b> wanna sex</p> <p><b>Tags:</b> HELLO,(SPAM)</p> <p><b>Sender:</b> Juan Manuel De la Oliva Aguilar</p> <p><b>Receiver:</b> Adolfo Martinez</p> <div>List message</div> </div>					
<b>Notes</b>						

## Use case UC10-1 Insurance (C-Level)

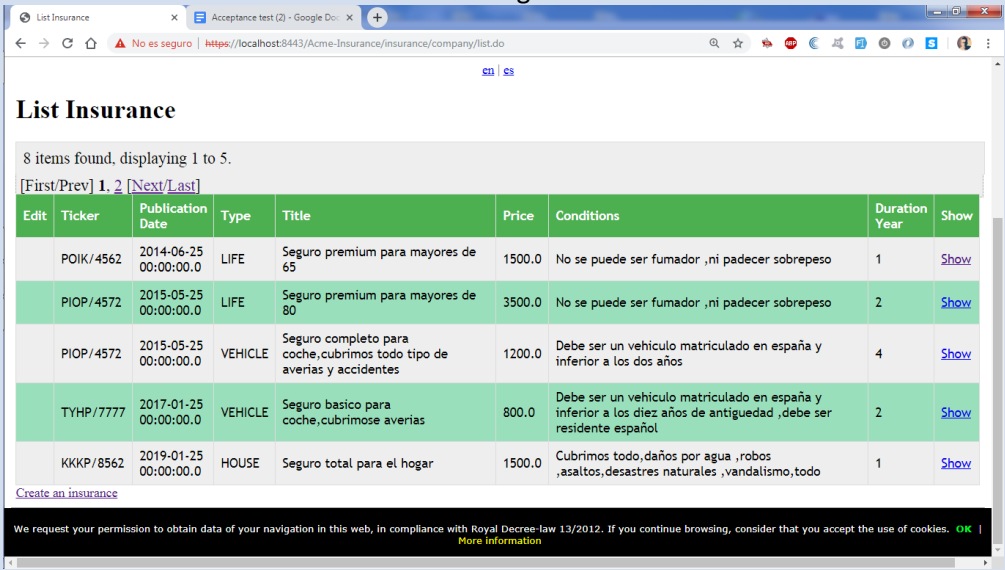

### Description

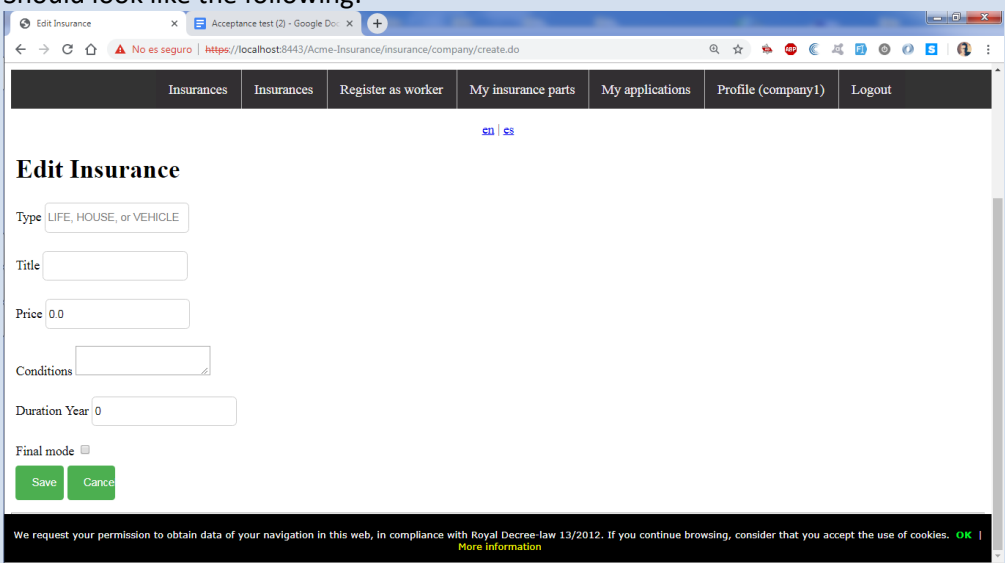

An actor who is authenticated as a company must be able to manage an arbitrary number of insurances, which includes listing, showing, creating, updating, and canceling them, that means that if it is canceled it cannot be edited.

### Access

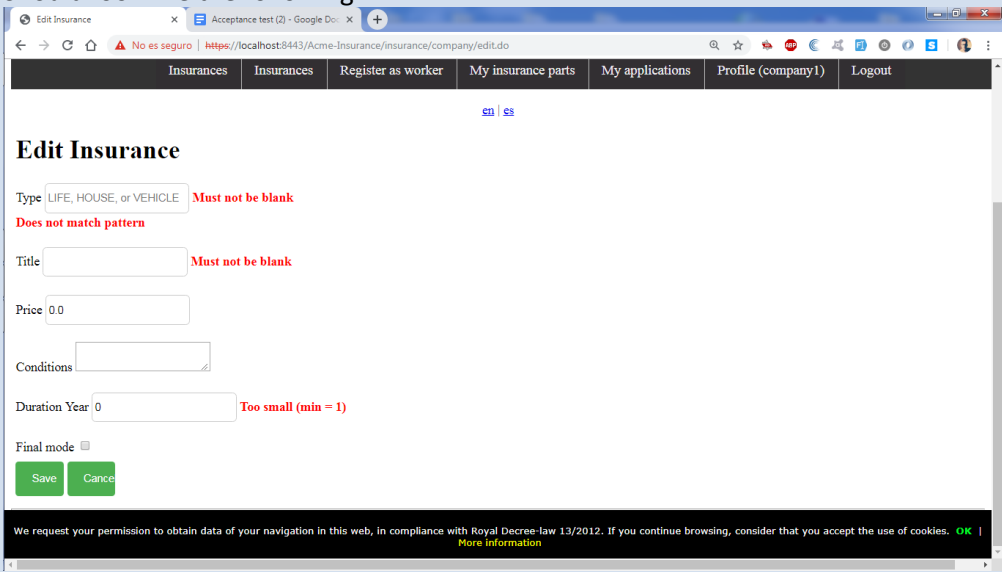

First we authenticate ourselves as 'company', (user=company1, password=company1). Press Main Menu>Insurances>My Insurances.

## Tests

Test <#001>	
Description	Test that list as photo below
Expected	<p>The list shown should look like the following:</p> 
Outcome	<p>When trying to access to “My insurances”, the system displays a white page that says “Oops! You don't have access to this resource.”.</p> <p>Accessing by manually inserting the url: correct, the system does as expected.</p>
Notes	

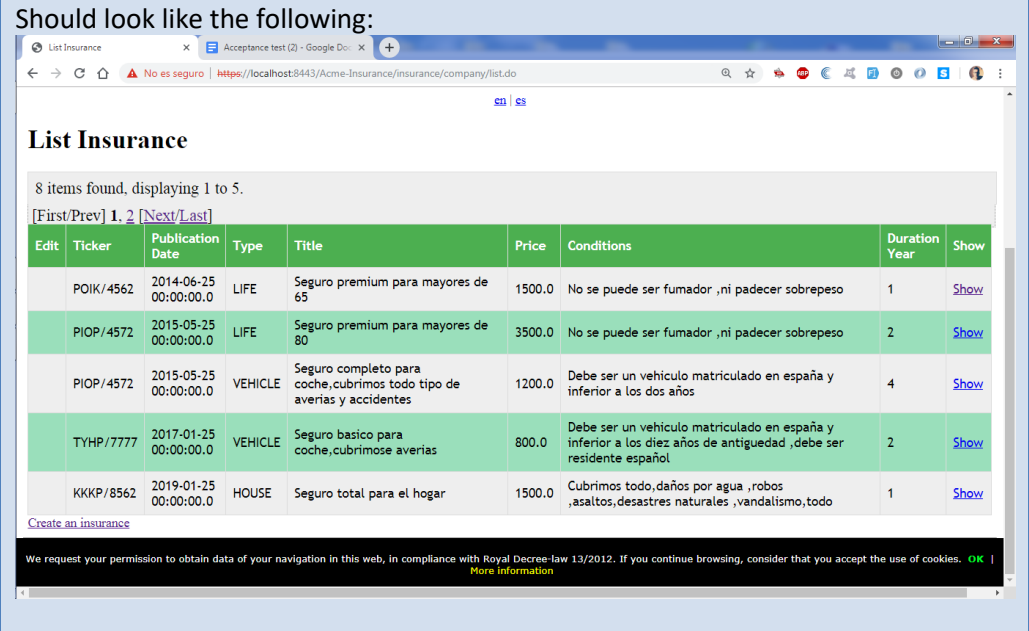

Test <#002>	
Description	Press on the link “Create an insurance”
Expected	<p>Should look like the following:</p> 

Outcome	When trying to access to “My insurances”, the system displays a white page that says “Oops! You don’t have access to this resource.”.
Notes	Accessing by manually inserting the url: correct, the system does as expected.

Test <#003>	
Description	In the same window press “save” with empty values.
Expected	Should look like the following: 
Outcome	When trying to access to “My insurances”, the system displays a white page that says “Oops! You don’t have access to this resource.”.
Notes	Accessing by manually inserting the url: the validation is different than in the image, on the “Condition” field appears the following error: “Must not be blank”.

Test <#004>	
Description	In the same window press “save” with values.
Expected	Should look like the following:

	
Outcome	The system does not save the insurance, instead, the next error is shown: Cannot commit operation!
Notes	

Test <#005>	
Description	In the create window press “cancel”.
Expected	<p>Should look like the following:</p> 
Outcome	Correct, the system does as expected.
Notes	

## Test <#006>

### Description

Please, find your created insurance and edit it.

### Expected

Should look like the following:

The screenshot shows a web browser window with the URL `https://localhost:8443/Acme-Insurance/insurance/company/list.do?d=16544-p=2`. The page has a dark navigation bar with links: Insurances, Insurances, Register as worker, My insurance parts, My applications, Profile (company1), and Logout. Below the navigation bar, the page title is "List Insurance". A message states "9 items found, displaying 6 to 9." with pagination links: [First/Prev] 1. 2 [Next/Last]. A table displays the insurance data:

Edit	Ticker	Publication Date	Type	Title	Price	Conditions	Duration Year	Show
	MIOP/2672	2018-02-12 00:00:00.0	HOUSE	Seguro básico para el hogar	400.0	Cubrimos solo robos y asaltos ,cubrimos robos pero solo hasta los primeros 3000 euros	1	<a href="#">Show</a>
<a href="#">Edit</a>	YUIO/4472	2018-09-17 00:00:00.0	HOUSE	Seguro personalizado	500.0	NOs adaptamos a todas sus ....?	1	<a href="#">Show</a>

<a href="#">Edit</a>	LIFE-FOUR	2019-05-29 22:37:00.0	LIFE	TEST	100.0		1	<a href="#">Show</a>

Below the table is a link: [Create an insurance](#). At the bottom, a cookie consent banner is visible.

The screenshot shows a web browser window with the URL `https://localhost:8443/Acme-Insurance/insurance/company/edit.do?insuranceId=294912`. The page has the same dark navigation bar as the previous screenshot. Below the navigation bar, the page title is "Edit Insurance". The form contains the following fields:

- Type:
- Title:
- Price:
- Conditions:
- Duration Year:
- Final mode: ☐

At the bottom of the form are three buttons: Save, Delete, and Cancel. A cookie consent banner is visible at the bottom of the page.

Outcome

Correct, the system does as expected, but I could not edit the new insurance because it could not be created.

Notes

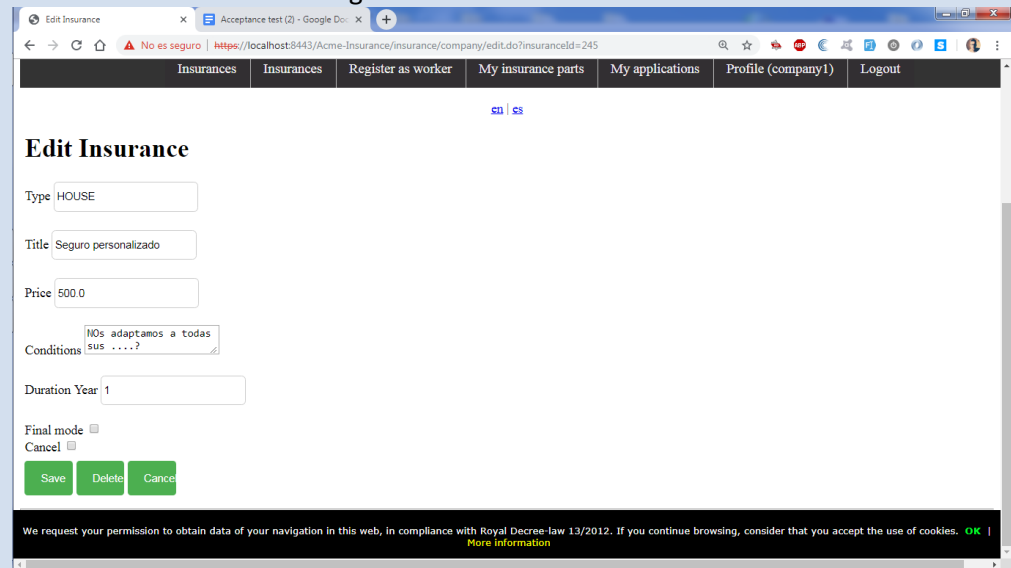

## Test <#007>

### Description

In the edit window select “cancel”. The insurance disappear.

### Expected

Should look like the following:

### Outcome

There is no Delete button on the edit view. There is no cancel checkbox also.

### Notes

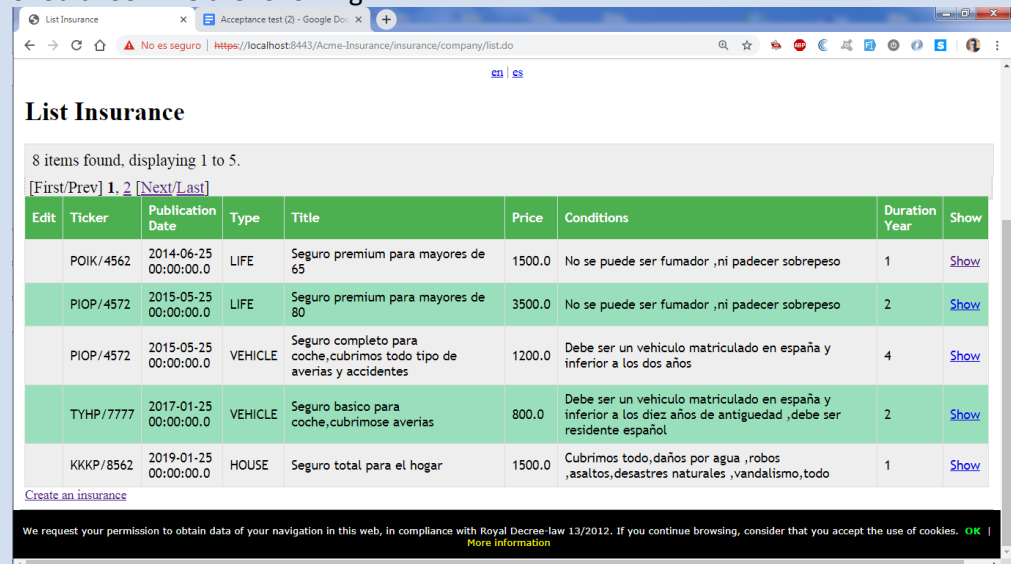

## Test <#008>

### Description

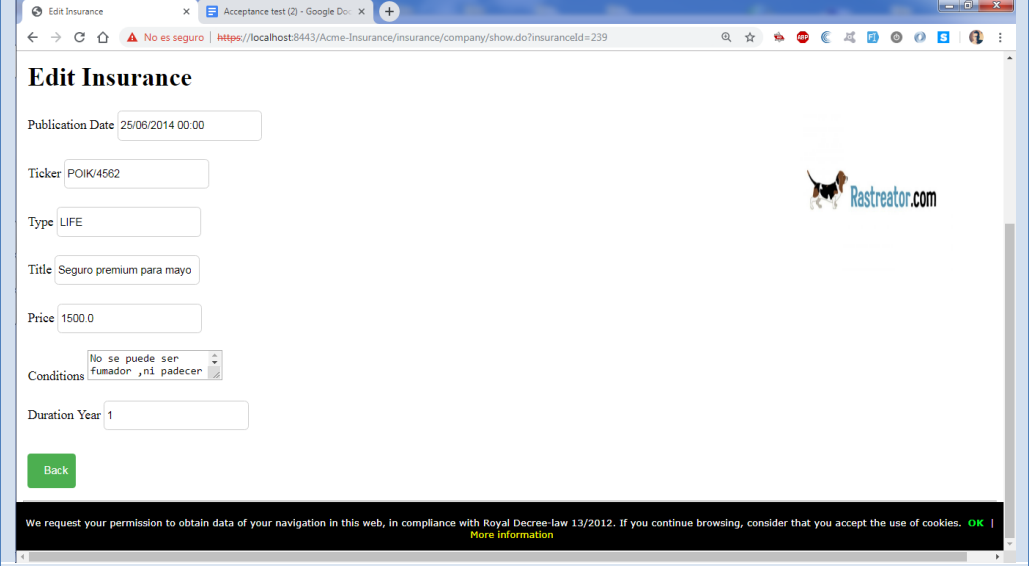

Press show in list view. Random banners appear.

### Expected

Should look like the following:

	
Outcome	Correct, the system does as expected.
Notes	

## Use case UC10-2 Workers management (C-Level)

### Description

An actor who is authenticated as a company must be able to Manage their workers, including registration, listing, showing, and firing.

### Access

First, we use the “LOGIN” option available in the menu, and we log in the system as a company.

For listing our workers, we use the option “MY WORKERS” available in the menu. This option also has a drop-down menu where the option “REGISTER WORKER” can be found. Said option allows us to register a worker in our company.

Once we list our workers, we can show them or fire them using the “Profile” and “Fire workers” links available in the list.

### Tests

Test <#001>																					
Description	A company lists their workers. We log in as the company “company1/company1” and list our workers. Then, we show the profile of the worker Amelia Alarcón.																				
Expected	<div>The list of workers shows this</div> <div><div>List workers</div><div>3 items found, displaying all items</div><div>1</div><table><tr><th>Name</th><th>Surname</th><th>Middle name</th><th></th><th></th></tr><tr><td>Amelia</td><td>Alarcón</td><td>Alarcón</td><td><a href="#">Profile</a></td><td><a href="#">Fire worker</a></td></tr><tr><td>Laura</td><td>Alarcón</td><td>Pino</td><td><a href="#">Profile</a></td><td><a href="#">Fire worker</a></td></tr><tr><td>Carmen</td><td>Alarcón</td><td>Pino</td><td><a href="#">Profile</a></td><td><a href="#">Fire worker</a></td></tr></table></div> <div>The columns in detail</div>	Name	Surname	Middle name			Amelia	Alarcón	Alarcón	<a href="#">Profile</a>	<a href="#">Fire worker</a>	Laura	Alarcón	Pino	<a href="#">Profile</a>	<a href="#">Fire worker</a>	Carmen	Alarcón	Pino	<a href="#">Profile</a>	<a href="#">Fire worker</a>
Name	Surname	Middle name																			
Amelia	Alarcón	Alarcón	<a href="#">Profile</a>	<a href="#">Fire worker</a>																	
Laura	Alarcón	Pino	<a href="#">Profile</a>	<a href="#">Fire worker</a>																	
Carmen	Alarcón	Pino	<a href="#">Profile</a>	<a href="#">Fire worker</a>																	

Name	Surname	Middle name
Amelia	Alarcón	Alarcón
Laura	Alarcón	Pino
Carmen	Alarcón	Pino

<a href="#">Profile</a>	<a href="#">Fire worker</a>
<a href="#">Profile</a>	<a href="#">Fire worker</a>
<a href="#">Profile</a>	<a href="#">Fire worker</a>

The profile of the worker looks like this

## Actor profile

**Name:** Amelia

**Middle name:** Alarcón

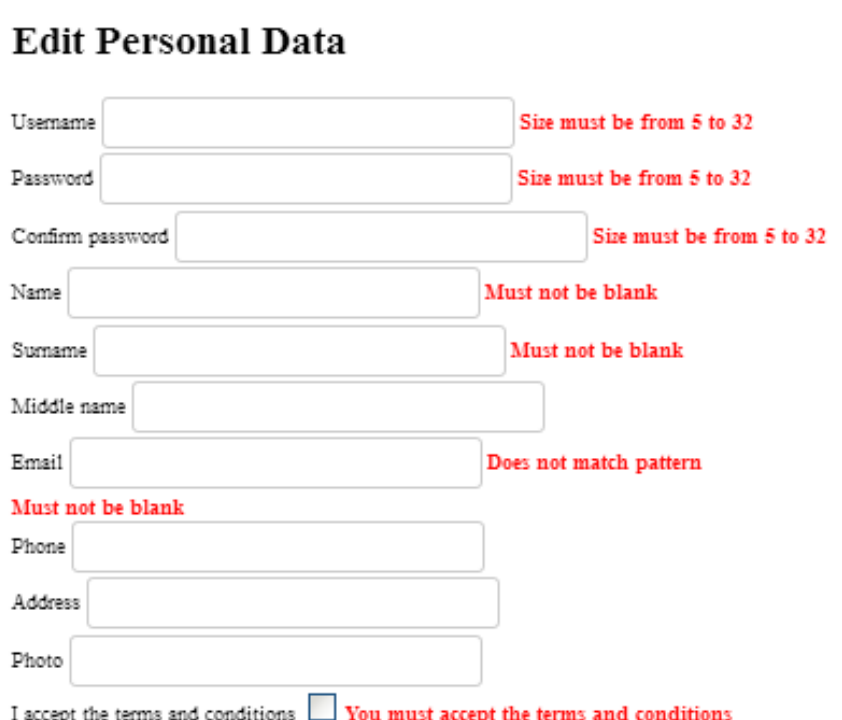

**Surname:** Alarcón

**Phone:** +34(688)775654789

**Address:** Calle no mas sin menos 14

**Outcome**  
**Notes**

Correct, the system does as expected.

Test <#002>	
Description	A company registers a new worker using a blank form.
Expected	<p>The form displays the following errors</p>  <p><b>Edit Personal Data</b></p> <p>Username <input type="text"/> Size must be from 5 to 32</p> <p>Password <input type="password"/> Size must be from 5 to 32</p> <p>Confirm password <input type="password"/> Size must be from 5 to 32</p> <p>Name <input type="text"/> Must not be blank</p> <p>Surname <input type="text"/> Must not be blank</p> <p>Middle name <input type="text"/></p> <p>Email <input type="text"/> Does not match pattern</p> <p>Must not be blank</p> <p>Phone <input type="text"/></p> <p>Address <input type="text"/></p> <p>Photo <input type="text"/></p> <p>I accept the terms and conditions <input type="checkbox"/> You must accept the terms and conditions</p>
Outcome	Correct, the system does as expected.
Notes	

Test <#003>	
Description	<p>A company registers a new worker successfully. The data used for register the worker is these.</p>  <p><b>Edit Personal Data</b></p> <p>Username <input type="text" value="bestworker"/></p> <p>Password <input type="password" value="bestworker"/></p> <p>Confirm password <input type="password" value="bestworker"/></p> <p>Name <input type="text" value="bestworker"/></p> <p>Surname <input type="text" value="bestworker"/></p> <p>Middle name <input type="text" value="bestworker"/></p> <p>Email <input type="text" value="bestworker@gmail.com"/></p> <p>Phone <input type="text"/></p> <p>Address <input type="text"/></p> <p>Photo <input type="text"/></p> <p>I accept the terms and conditions <input checked="" type="checkbox"/></p>
Expected	Where the password used is "besworker".
Outcome	The new worker appears in the list of the company's workers.
Notes	Correct, the system does as expected.

Test <#004>	
Description	A company fires a new worker. The fired worker will be Amelia Alarcón.
Expected	The worker is banned and her applications are unassigned.
Outcome	Correct, the system does as expected.
Notes	

## Use case UC11-1 Manage applications worker

### Description

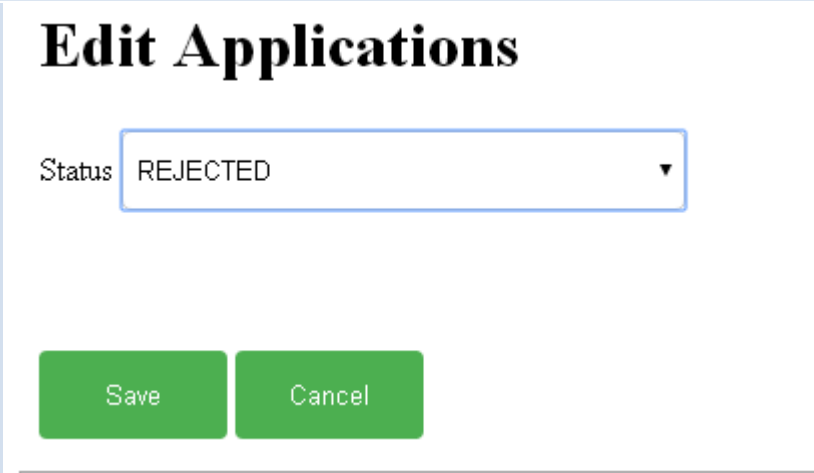

An actor who authenticates as an worker must be able to Manage their applications about the company insurances, including listing and updating. A worker can update an application to change its status from pending to accepted or rejected; if rejected, they must write the reason.

### Access

First we authenticate ourselves as 'worker', (user=worker1, password=worker1). In the navigation bar we push “my applications”. This new view will show you a list of applications.

### Tests

Test <#001>																												
Description	In the page to list application we will see 2 applications.

	2017-06-22 19:35:00.0	ACCEPTED	Quiero el seguro PREMIUM plus ,cumpló todos los criterios																									
Notes	now we will assign and unassign both of them																											

Test <#001>	
Description	let's reject the first one
Expected	
Outcome	Correct, the system does as expected.
Notes	

Test <#003>	
Description	Let's edit again.
Expected	<p>we can edit the reason this time</p> 
Outcome	There is no Reason field on the edit view. There is another form on the "Show" view, but It cannot be saved.
Notes	

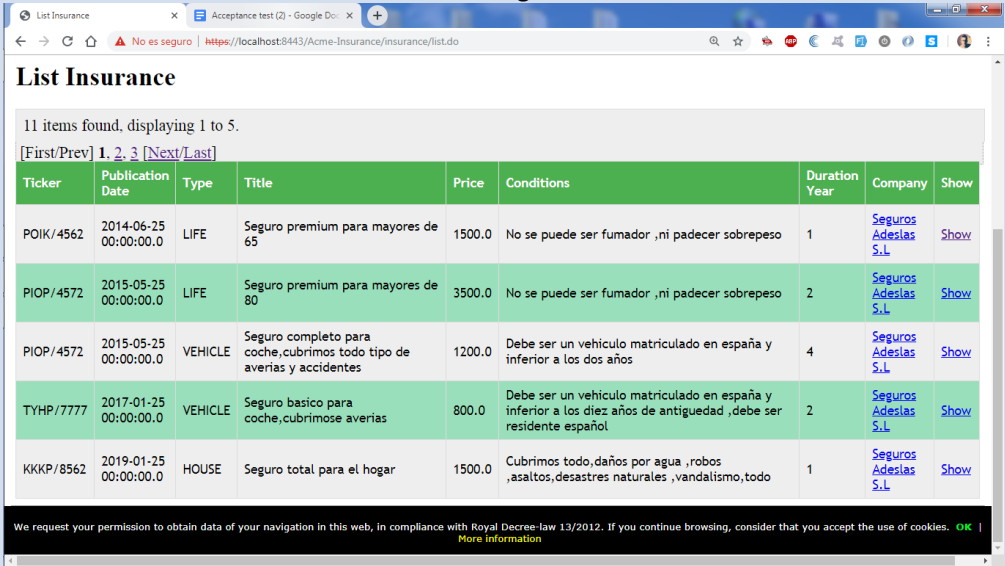

## Use case UC11-2 Insurance (C-Level)

### Description

An actor who is authenticated as a worker must be able to browse the catalogue of insurances and navigate to the personal data of the corresponding company.

## Access

First we authenticate ourselves as 'worker', (user='worker1, password='worker1). Press Main Menu>Insurances.

Test <#001>	
Description	Test that list as photo below. Please navigate by company.
Expected	<p>The list shown should look like the following:</p> 
Outcome	Correct, the system does as expected.
Notes	

## Use case UC11-3 Assigning and unassign a worker

### Description

An actor who authenticates as a client must be able to assign a worker to an application, and can also be unassigned if he does not want to edit it. When a worker accepts an application, then the corresponding worker can be associated with clauses for the application.

## Access

First we authenticate ourselves as 'worker', (user=worker1, password=worker1). In the navigation bar we push "my applications". This new view will show you a list of applications.

## Tests

Test <#001>																												
Description	In the page to list application we will see 2 applications.																											
Expected																												
	<div><div>List Applications</div><div>2 items found, displaying all items.</div><div>1</div><table><tr><th>Edit</th><th>Moment</th><th>Status</th><th>Comment</th><th>Insurance</th><th>Clause</th><th>Show</th><th>Assign</th><th>Unassign</th></tr><tr><td><a href="#">Edit</a></td><td>2018-02-25 12:35:00.0</td><td>SUBMITTED</td><td>Quiero un seguro PREMIUM pero barato</td><td>POIK/4562</td><td>Clause 2.4</td><td><a href="#">Show</a></td><td></td><td><a href="#">Unassign</a></td></tr><tr><td></td><td>2017-06-12 19:35:00.0</td><td>SUBMITTED</td><td>Quiero el seguro PREMIUM plus para mi padre que tiene 85 años</td><td>PIOP/4572</td><td>Clause 2.4.6</td><td><a href="#">Show</a></td><td><a href="#">Assign</a></td><td></td></tr></table></div>	Edit	Moment	Status	Comment	Insurance	Clause	Show	Assign	Unassign	<a href="#">Edit</a>	2018-02-25 12:35:00.0	SUBMITTED	Quiero un seguro PREMIUM pero barato	POIK/4562	Clause 2.4	<a href="#">Show</a>		<a href="#">Unassign</a>		2017-06-12 19:35:00.0	SUBMITTED	Quiero el seguro PREMIUM plus para mi padre que tiene 85 años	PIOP/4572	Clause 2.4.6	<a href="#">Show</a>	<a href="#">Assign</a>

Outcome	Correct.																																													
Notes																																														

Test <#004>	
Description	Let's edit the third one.
Expected	Accept the application

	<h2>Edit Applications</h2> <div> Status <div>ACCEPTED</div> </div> <div> <div>Save</div> <div>Cancel</div> </div>
Outcome	Correct, the system does as expected.
Notes	

Test <#005>	
Description	Let's edit the first one again.
Expected	This time we can change the clause <div> <h2>Edit Applications</h2> <div> Clause <div>Insurance</div> </div> <div> <div>Save</div> <div>Cancel</div> </div> </div>
Outcome	There is no Clause field on the edit view. There is another form on the "Show" view, but It cannot be saved.
Notes	

## Use case UC12-1 Insurance (C-Level)

### Description

An actor who is authenticated as a client must be able to browse the catalogue of insurances and navigate to the personal data of the corresponding company.

## Access

First we authenticate ourselves as client', (user=client1, password=client1). Press Main Menu>Insurances.

Test <#001>	
Description	Test that list as photo below. Please navigate by company.
Expected	<p>The list shown should look like the following:</p> 
Outcome	Correct, but the insurances shown are not the same.
Notes	

## Use case UC12-3 Manage applications client

### Description

An actor who authenticates as an client must be able to Manage the applications for his or her insurances, which includes listing, creating, updating and deleting them. An application can only be edited or deleted as long its status in “PENDING”.

### Access

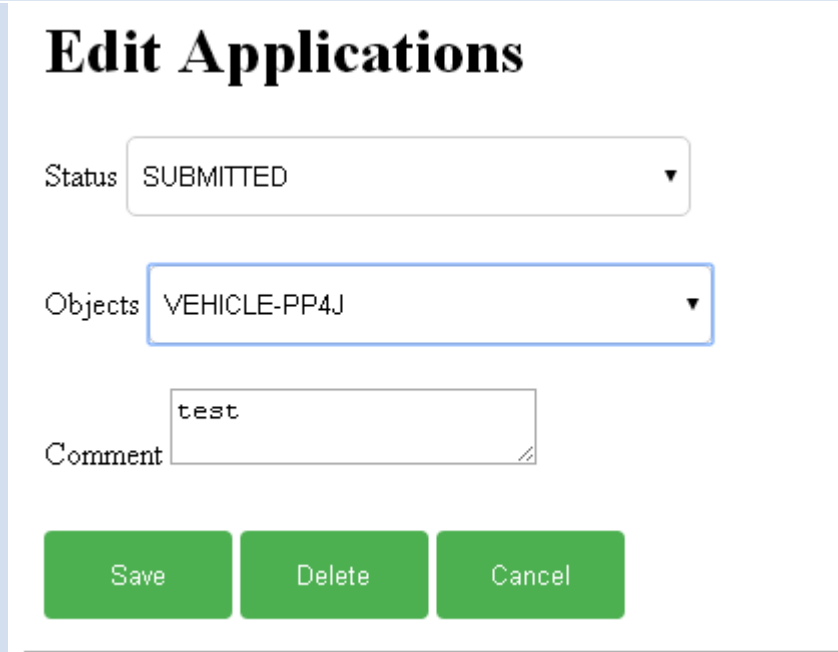

First, we authenticate ourselves as ‘client', (user=client1, password=client1). In the navigation bar we push “my applications”. This new view will show you a list of the applications that I have made.

## Tests

Test <#001>																																											
Description	In the page to list application we will see 5 applications.

Notes																																				

Test <#003>	
Description	Let's create one of them applying for the first insurance
Expected	<p><b>Edit Applications</b></p> <p>Status <input type="text" value="PENDING"/></p> <p>Objects <input type="text" value="VEHICLE-JK4J"/></p> <p>Comment <input type="text"/></p> <p><input type="button" value="Save"/> <input type="button" value="Cancel"/></p>
Outcome	The create application link is incorrect, it redirects to “/insurance/listClient.do”.
Notes	EDIT – After pressing apply, the form appears and the application can be created.

Test <#003>	
Description	We can edit and put comments
Expected	
Outcome	The edit form works as expected, the application is updated.
Notes	

## Use case UC12-4 Insurance (C-Level)

### Description

Filter the catalogue of insurances using the following filters: a single keyword that must appear somewhere in its ticker, title or name of company. Also, the type of the insurance

### Access

First we authenticate ourselves as client', (user=client1, password=client1). Press Main Menu>Insurances.

Test <#001>	
Description	Test that list as photo below. Please enter as keyword "premium" and press "search".
Expected	The list shown should look like the following:

The screenshot shows the 'List Insurance' page with a search bar containing 'premium'. Below the search bar, it says '11 items found, displaying 1 to 5.' and provides pagination links: '[First/Prev] 1, 2, 3 [Next/Last]'. A table lists insurance policies with columns: Ticker, Publication Date, Type, Title, Price, Conditions, Duration Year, Company, Show, and Apply. The table contains four visible rows of data. A cookie consent banner is at the bottom.

Ticker	Publication Date	Type	Title	Price	Conditions	Duration Year	Company	Show	Apply
POIK/4562	2014-06-25 00:00:00.0	LIFE	Seguro premium para mayores de 65	1500.0	No se puede ser fumador ,ni padecer sobrepeso	1	Seguros Adeslas S.L	Show	
PIOP/4572	2015-05-25 00:00:00.0	LIFE	Seguro premium para mayores de 80	3500.0	No se puede ser fumador ,ni padecer sobrepeso	2	Seguros Adeslas S.L	Show	
PIOP/4572	2015-05-25 00:00:00.0	VEHICLE	Seguro completo para coche,cubrimos todo tipo de averias y accidentes	1200.0	Debe ser un vehiculo matriculado en españa y inferior a los dos años	4	Seguros Adeslas S.L	Show	Apply
TVHB/7777	2017-01-25	VEHICLE	Seguro basico para	800.0	Debe ser un vehiculo matriculado en españa y inferior a los diez años de antigüedad	7	Seguros Adeslas	Show	Apply

The screenshot shows the 'List Insurance' page with a search bar containing 'militar'. Below the search bar, it says '2 items found, displaying all items.' and provides pagination links: '1'. A table lists insurance policies with columns: Ticker, Publication Date, Type, Title, Price, Conditions, Duration Year, Company, and Show. The table contains two visible rows of data. A cookie consent banner is at the bottom.

Ticker	Publication Date	Type	Title	Price	Conditions	Duration Year	Company	Show
POIK/4562	2014-06-25 00:00:00.0	LIFE	Seguro premium para mayores de 65	1500.0	No se puede ser fumador ,ni padecer sobrepeso	1	Seguros Adeslas S.L	Show
PIOP/4572	2015-05-25 00:00:00.0	LIFE	Seguro premium para mayores de 80	3500.0	No se puede ser fumador ,ni padecer sobrepeso	2	Seguros Adeslas S.L	Show

Correct, searching for “premium” does not return anything, but “militar” does. The insurances are not the same.

## Use case UC13-1 Register as administrator (C-Level)

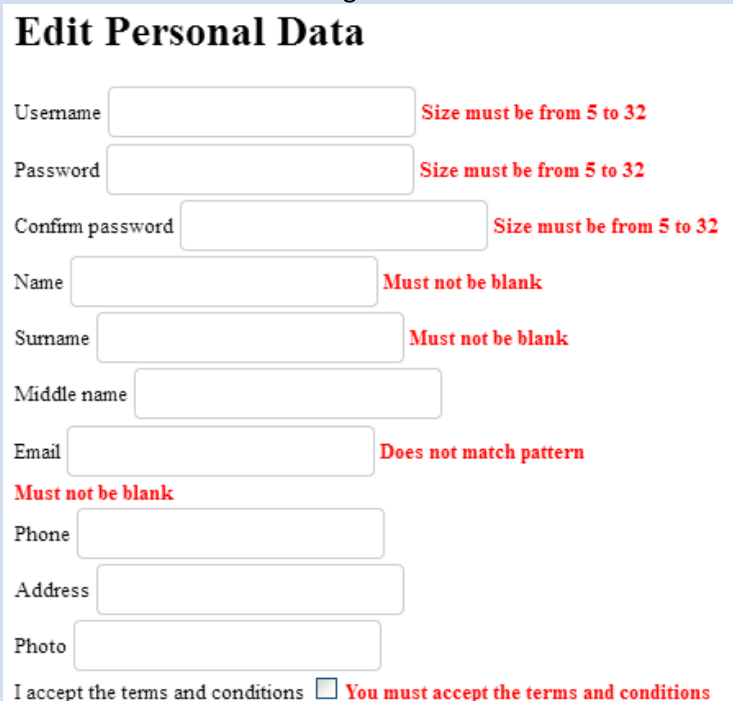

### Description

An actor who is authenticated as an administrator must be able to create new user accounts for new administrators.

## Access

We log in the system as administrators and then, we select the option “REGISTER ADMINISTRATOR” in the drop-down menu of the option “ADMINISTRATOR CONTROLS” available in the menu.

## Tests

Test <#001>	
Description	A user logged in as administrator tries to register another administrator using a blank form. We can use the administrator “admin1/admin1”
Expected	<p>The form shows the following errors</p>  <p><b>Edit Personal Data</b></p> <p>Username <input type="text"/> Size must be from 5 to 32</p> <p>Password <input type="password"/> Size must be from 5 to 32</p> <p>Confirm password <input type="password"/> Size must be from 5 to 32</p> <p>Name <input type="text"/> Must not be blank</p> <p>Surname <input type="text"/> Must not be blank</p> <p>Middle name <input type="text"/></p> <p>Email <input type="text"/> Does not match pattern</p> <p>Must not be blank</p> <p>Phone <input type="text"/></p> <p>Address <input type="text"/></p> <p>Photo <input type="text"/></p> <p>I accept the terms and conditions <input type="checkbox"/> You must accept the terms and conditions</p>
Outcome	Correct, the system does as expected.
Notes	

Test <#002>	
Description	A user logged in as administrator tries to register another administrator successfully, giving the following data

	<h2>Edit Personal Data</h2> <p>Username <input type="text" value="administrador10"/></p> <p>Password <input type="password" value="....."/></p> <p>Confirm password <input type="password" value="....."/></p> <p>Name <input type="text" value="administrador10"/></p> <p>Surname <input type="text" value="administrador10"/></p> <p>Middle name <input type="text" value="administrador10"/></p> <p>Email <input type="text" value="administrador10@gmail.com"/></p> <p>Phone <input type="text" value="+34(123)1234"/></p> <p>Address <input type="text" value="administrador10"/></p> <p>Photo <input type="text"/></p> <p>I accept the terms and conditions <input checked="" type="checkbox"/></p> <p>Where the “password” and “confirm password” fields are both “administrador10”</p>
<b>Expected</b>	The user has been registered successfully. We can log in the system using the new user.
<b>Outcome</b>	Correct, the system does as expected.
<b>Notes</b>	

## Use case UC13-2 Clauses (C-Level)

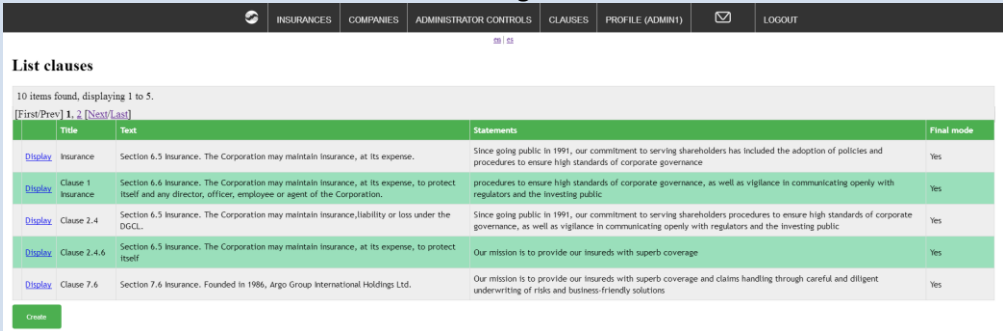

### Description

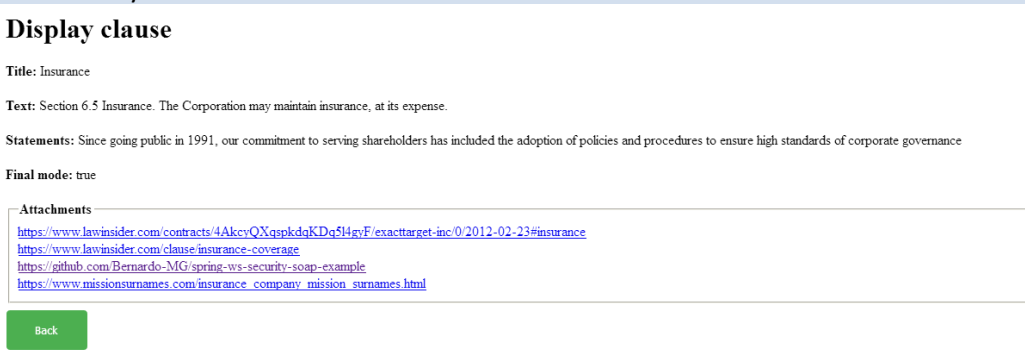

An actor who authenticates as an administrator must be able to manage the catalogue of clauses, which includes listing, showing, creating, updating, and deleting them. A clause can be updated or deleted as long as is saved in draft mode. Once it's saved in final mode, it cannot be edited or deleted.

### Access

First we authenticate ourselves as 'administrator', (user=admin1, password=admin1). Press Main Menu>Clauses. It will show us different information about the data registered in the system.

## Tests

Test <#001>	
Description	Test to list clauses. When you click on 'CLAUSES', it will show us a list with all the clauses.
Expected	<p>The list shown should look like the following:</p> 
Outcome	Correct, the system does as expected.
Notes	These results come out at the start of the application, if there are changes later the results could be different from those shown.

Test <#002>	
Description	Test to show a clause. When we are already in the list view to show one clause we must click on the link called 'Display'. In this test we are going to show the first clause that appeared to us in the previous test.
Expected	<p>The details you should show from that review are as follows:</p> 
Outcome	Correct, the system does as expected.
Notes	

Test <#003>	
Description	Try to create a clause. We must click on the button called 'Create' in the list view. It will show us a form that we will leave blank.
Expected	<p>The information is not saved and all validation errors are reported in the form view itself.</p> <ul style="list-style-type: none"> <li>- Text field where appears “Must not be blank” is that this field has left it unfilled and should be filled.</li> </ul>

# Edit clause

Title

Must not be blank

Text

Must not be blank

Statements

Must not be blank

Attachments

Final mode

☒ No
 ☐ Yes

Save

Cancel

Outcome

Correct, the system does as expected.

Notes

Test <#004>

Description

Try to create a clause. We must click on the button called 'Create'

It will show us a form that we fill in with the following data:

Title: TEST,

Text: TEST,

Statements: TEST

Attachments: (none),

Final Mode: NO

Press the Save button.

Expected

It redirects us to the list of the clauses, where the clause we have created has been added ---> You will find it in the last page.

List clauses

11 items found, displaying 11 to 11.

First/Prev

1, 2, 3

Next/Last

	Title	Text	Statements	Final mode
<a href="#">Edit</a>	TEST	TEST	TEST	No

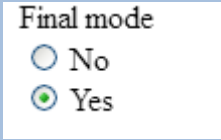

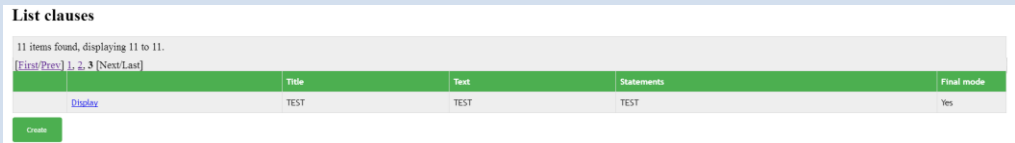

Create

Outcome

Correct, the system does as expected.

Notes

Test <#005>	
<b>Description</b>	<p>Try editing a clause. To edit a clause it will show us a link called 'Edit' in those clauses that are not in final mode.</p> <p>We are going to edit the clause we just created “TEST” and we are going to put it in final mode</p>  <p>Press the Save button.</p>
<b>Expected</b>	<p>It redirects us to the list of the vehicles of the client1, where the vehicle we have selected has been edited.</p> <p><b>List clauses</b></p> 
<b>Outcome</b>	Correct, the system does as expected.
<b>Notes</b>	Now you can see that you can't edit this clause because it is in final mode

Test <#006>	
<b>Description</b>	<p>Try to erase a clause. To delete a clause we must go to the edit form and there we will see a “delete” button. We press the Delete button and accept that we are sure that we want to delete it. We are going to edit the <b>Clause 56.6</b> in the second page because this clausurer are not in final mode</p>
<b>Expected</b>	<p>It redirects us to the list of the clauses, where the clause we have selected has been erased.</p> <p><b>List clauses</b></p> 
<b>Outcome</b>	Correct, the system does as expected.
<b>Notes</b>	

## Use case UC13-3 Broadcast message (C-Level)

### Description

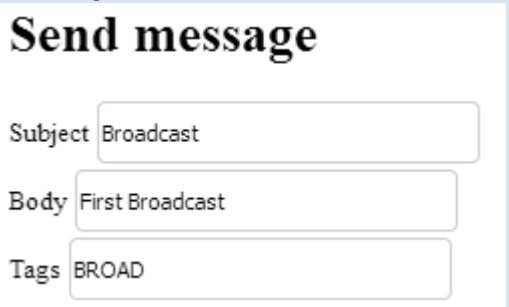

An actor who is authenticated as an administrator must be able to exchange messages with other actors and manage them.

### Access

After we use the “LOGIN” option available in the menu, and we log in the system, we access to the drop-down menu in the option with an envelop icon. Then, we can send a broadcast message by selecting the “Broadcast message” option.

## Tests

Test <#001>	
Description	An actor tries to send a blank broadcast message. We log in the system using the credentials “admin1/admin1”, then we try to send a message with all the fields blank.
Expected	<p>The following errors</p> 
Outcome	Correct, the system does as expected.
Notes	

Test <#002>	
Description	<p>An administrator sends a broadcast message successfully. We log in the system using the credentials “admin1/admin1”, then we send a message with the following data.</p> 
Expected	<p>Then, we list our messages</p> <p>For each other actor in the system, a message has been sent. The data in these is correct.</p>
Outcome	Correct, the system does as expected.
Notes	

## Use case UC13-4 Display dashboard (C-Level)

### Description

An actor who authenticates as an administrator must be able to display a dashboard with the following information:

- 13.4.1. The ratio of pending applications.

- 13.4.2. The ratio of accepted applications.
- 13.4.3. The ratio of rejected applications.
- 13.4.4. The average, the minimum, the maximum, and the standard deviation of the number of applications per worker.
- 13.4.5. The average, the minimum, the maximum, and the standard deviation of the number of insurances per company.
- 13.4.6. The ratio of life insurances.
- 13.4.7. The ratio of house insurances.
- 13.4.8. The ratio of vehicle insurances.
- 13.4.9. The top 3 of companies with more accepted applications.
- 13.4.10. The top 3 of workers with more applications accepted.
- 13.4.11. The worker with more rejected application.

## Access

First we authenticate ourselves as 'administrator', (user=admin1, password=admin1). Press Main Menu>Control Panel. It will show us different information about the data registered in the system.

## Tests

Test <#001>	
<b>Description</b>	We are navigating in the board to see the information already mentioned, which will appear in the same descending order
<b>Expected</b>	<p>The ratio of pending applications</p> <div> The ratio of pending applications  Ratio: 0.40 </div> <p>The ratio of accepted applications</p> <div> The ratio of accepted applications  Ratio: 0.30 </div> <p>The ratio of rejected applications.</p> <div> The ratio of rejected applications  Ratio: 0.30 </div> <p>The average, the minimum, the maximum, and the standard deviation of the number of applications per worker.</p> <div> The average, the minimum, the maximum, and the standard deviation of the number of applications per worker. Correct, but the values are not the same.

Notes

These results come out at the start of the application, if there are changes later the results could be different from those shown.

## Use case UC12-2 Manage their insureded objects

### Description

An actor who is authenticated as a client must be able to manage their insureded objects, including listing,group by type creating them and edit or delete them only if the object hasn't insurance assigned.

### Access

First we authenticate ourselves as 'client', (user=client1, password=client1). Press Main Menu>Objects record>My lives record.

For access to the houses' management, first we have to authenticate ourselves as a client.

Then we access to the drop-down menu under the option "REGISTERED OBJECTS" and we select the option "MY REGISTERS OF HOUSES" for access to the list of our registered houses.

For access to the vehicles is exactly the same way but pressing the button "My registers of vehicles"

In the list, we can access to the creation of houses through the button "Create". We can also access the edit for of a house using the "Edit" link and we can show a house using the "Display" link.

We can delete a house using the "Delete" button available in the edit form.

### Tests

Test <#001>													
Description	Test to list lifes. When you click on 'My life records', it will show us a list with all the lives of the client1.												
Expected	<div>The list shown should look like the following:</div> <div><div>Listado de registro de vidas</div><div>2 registros encontrados, mostrando todos los registros.</div><div>1</div><table><thead><tr><th></th><th>Nombre</th><th>¿Fumador?</th><th>Fecha Nacimiento</th></tr></thead><tbody><tr><td><a href="#">Display</a></td><td></td><td>true</td><td>1959-05-29</td></tr><tr><td><a href="#">Display</a></td><td></td><td>false</td><td>1920-12-29</td></tr></tbody></table><div><div>Create</div><div>Cancel</div></div></div>		Nombre	¿Fumador?	Fecha Nacimiento	<a href="#">Display</a>		true	1959-05-29	<a href="#">Display</a>		false	1920-12-29
	Nombre	¿Fumador?	Fecha Nacimiento										
<a href="#">Display</a>		true	1959-05-29										
<a href="#">Display</a>		false	1920-12-29										
Outcome	Correct, the system does as expected.												
Notes	These results come out at the start of the application, if there are changes later the results could be different from those shown.												

Test <#002>	
Descriptio n	Test to show life. When you click on 'My life records', it will show us a list with all the lives of the client1, to show one we must click on the link called 'Show'. In this test we are going to show the first life that appeared to us in the previous test, by clicking on its link 'Show'.
Expected	The details you should show from that review are as follows:

	<p><b>Mostrar resgistro de vida</b></p> <p>Nombre:</p> <p>Ticker: LIFE-2K4J</p> <p>Fecha Nacimiento: 1959-05-29</p> <p>Número de hijos: 3</p> <p>Historial médico: Estoy muy sano ,fumo pero poco una vez al día ,corro ,hago deporte y como sano , poca carne y mucha fibra, abajo adjunto informes médicos</p> <p>¿Fumador?: true</p> <p>Adjuntos</p> <p><a href="http://www.mschs.gob.es/en/estadEstudios/estadisticas/docs/FOLLETO-BAJA-INGLES.PDF">http://www.mschs.gob.es/en/estadEstudios/estadisticas/docs/FOLLETO-BAJA-INGLES.PDF</a></p> <p><a href="https://www.lawinsider.com/clause/insurance-coverage">https://www.lawinsider.com/clause/insurance-coverage</a></p> <p>Back</p>
Outcome	Correct, the system does as expected.
Notes	

Test <#03>	
Description	Try to create a life. When you click on 'My life records', it will show us a list with all the lives of the client1, to create one we must click on the button called 'Create'. It will show us a form that we will leave blank.
Expected	<p>The information is not saved and all validation errors are reported in the form view itself.</p> <p>- Text field where appears 'Can not be null' is that this field has left it unfilled and should be filled.</p> <div> <p><b>Editar registro de vida</b></p> <p>Nombre <input type="text"/> No debe estar en blanco</p> <p>Fecha Nacimiento <input type="text"/> No puede ser null</p> <p>Número de hijos <input type="text" value="0"/></p> <p>Historial médico <input type="text"/></p> <p>Adjuntos <input type="text"/></p> <p>¿Fumador?</p> <p><input checked="" type="radio"/> No</p> <p><input type="radio"/> Si</p> <p>Save Delete</p> <p>Cancel</p> </div>
Outcome	Correct, the system does as expected.
Notes	

Test <#004>	
Description	<p>Try to create a life. When you click on 'My life records', it will show us a list with all the lives of the client1, to create one we must click on the button called 'Create'... It will show us a form that we fill in with the following data:</p> <p>Name: Juan,</p> <p>Date of birth: 2019/05/01,</p> <p>Number of children:1,</p> <p>smoker?:No</p> <p>Press the Save button.</p>

Expected

It redirects us to the list of the lives of the client1, where the life we have created has been added.

Outcome	Correct, the system does as expected.
Notes	

Test <#008>	
Description	A client tries to create a house using a blank form. We have to be logged as "client2/client2".
Expected	<p>The following errors are expected</p> 
Outcome	<p>The view that appears do not have any form, it is the same as in the test #5.</p> 
Notes	

**Test <#009>****Description**

A client creates a house successfully. We have to be logged as “client2/client2”. We use the following data

## Edit register of house

Calle Mississippi

Address

Construction date 2019/04/01

Postal code 43215

Square meters 34

Number floors 3

Attachments https://casa

**Expected**

A new register of house has been created successfully. It appears in the list of houses of the client who created it.

**Outcome**

Cannot do it, explained in the previous test.

**Notes****Test <#010>****Description**

A client tries to edit a house using a blank form. We have to be logged as “client2/client2”. We try to edit the house with address Calle Mario 42.

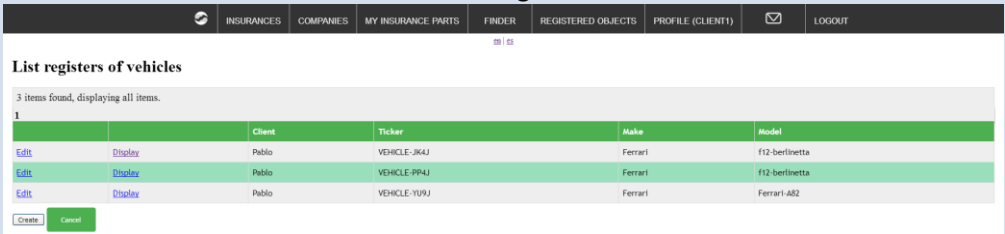

**Expected**

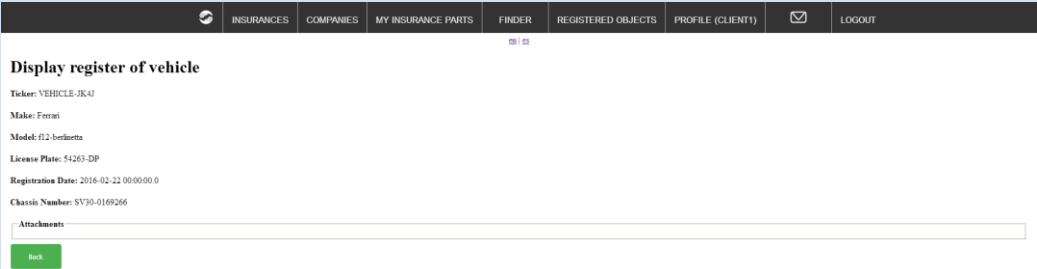

The following errors are expected

	<h2>Edit register of house</h2> <div> <div>Address <input type="text"/></div> <div>Must not be blank</div> <div>Construction date <input type="text"/></div> <div>Cannot be null</div> <div>Postal code <input type="text"/></div> <div>Must be a number</div> <div>Square meters <input type="text"/></div> <div>Must be a number</div> <div>Number floors <input type="text"/></div> <div>Must be a number</div> <div>Attachments <input type="text"/></div> </div>
Outcome	Correct.
Notes	

Test <#011>	
Description	<p>A client edits a house successfully. We have to be logged as “client2/client2”. We edit the house with address Calle Mario 42. We use the following data</p> <div> <h2>Edit register of house</h2> <div> <div>Calle Mississippi</div> <div>Address <input type="text"/></div> <div>Construction date <input type="text" value="2019/04/01"/></div> <div>Postal code <input type="text" value="43215"/></div> <div>Square meters <input type="text" value="34"/></div> <div>Number floors <input type="text" value="3"/></div> <div>Attachments <input type="text" value="https://casa"/></div> </div> </div>
Expected	The house has been edited successfully.
Outcome	Correct.
Notes	

Test <#012>	
Description	A client delete one of his/her houses. We have to be logged as “client2/client2”. We delete the house with address Calle Mario 42.
Expected	The house has been deleted and it doesn't appear in the client's list of houses.
Outcome	Correct.
Notes	

Test <#013>	
Description	Test to list vehicles. When you click on 'My registers of vehicle', it will show us a list with all the vehicles of the client1
Expected	<p>The list shown should look like the following:</p> 
Outcome	Correct.
Notes	These results come out at the start of the application, if there are changes later the results could be different from those shown.

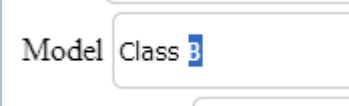

Test <#014>	
Description	Test to show vehicle. When we are already in the list view to show one vehicle we must click on the link called 'Display'. In this test we are going to show the first vehicle that appeared to us in the previous test.
Expected	<p>The details you should show from that review are as follows:</p> 
Outcome	Correct.
Notes	

Test <#014>	
Description	Try to create a vehicle. We must click on the button called 'Create' in the list view. It will show us a form that we will leave blank.

Create an insurance part

Outcome

Notes

Correct, but there are five instead of four.

Test <#002>	
Description	Let's edit the first one.
Expected	<div><b>Edit InsurancePart</b>  Date of the incident <input type="text" value="2015/02/22"/>  Description <input type="text" value="test"/>  Attachment <input type="text" value="http://test"/>  <div><a href="#">Save</a> <a href="#">Delete</a> <a href="#">Cancel</a></div></div>
Outcome	Correct.
Notes	

Test <#003>	
Description	Let's edit the first one.
Expected	<p>We can save with a future date.</p> <div> <h2>Edit InsurancePart</h2> <p>Date of the incident <input type="text" value="2019/10/08"/> <b>Must be in the past</b></p> <p>Description <input type="text" value="test"/></p> <p>Attachment <input type="text" value="http://test"/></p> <p> <input type="button" value="Save"/> <input type="button" value="Delete"/> <input type="button" value="Cancel"/> </p> <p><b>Cannot commit operation!</b></p> </div>
Outcome	Correct.
Notes	

Test <#004>	
Description	In the page to list unassigned insurance parts we will see 2 insurance parts. Let's create a report on the first one.
Expected	<p>We can't save with and non url attachment</p> <div> <h2>Edit InsurancePart</h2> <p>Date of the incident <input type="text" value="2015/02/22"/></p> <p>Description <input type="text" value="test"/></p> <p>Attachment <input type="text" value="test"/> <b>Invalid URL</b></p> <p> <input type="button" value="Save"/> <input type="button" value="Delete"/> <input type="button" value="Cancel"/> </p> <p><b>Cannot commit operation!</b></p> </div>
Outcome	It is unknown to me where is the list unassigned insurance parts. Editing like in the previous test is correct.
Notes	

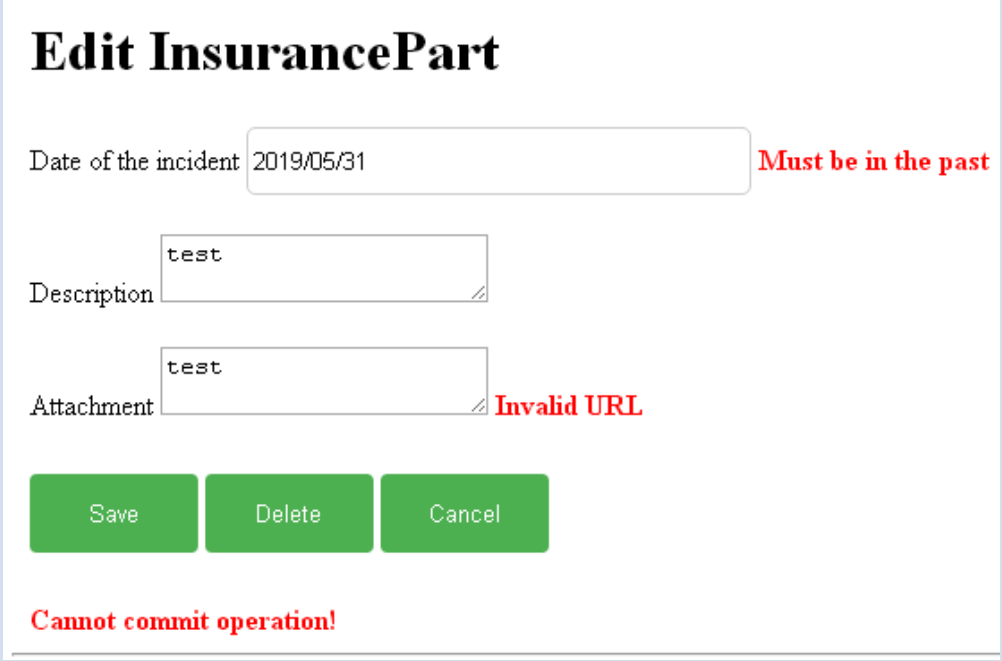

Test <#005>	
Description	In the page to list unassigned insurance parts we will see 2 insurance parts. Let's create a report on the first one.
Expected	<p>We can't save without description and attachment</p> <div> <h3>Edit InsurancePart</h3> <p>Date of the incident <input type="text" value="2015/02/22"/></p> <p>Description <input type="text"/> <b>Must not be blank</b></p> <p>Attachment <input type="text"/> <b>Must not be blank</b></p> <p> <input type="button" value="Save"/> <input type="button" value="Delete"/> <input type="button" value="Cancel"/> </p> <p><b>Cannot commit operation!</b></p> </div>
Outcome	It is unknown to me where is the list unassigned insurance parts. Editing like in the previous test does not show any error message next to attachment if it is blank.
Notes	

Test <#006>	
Description	In the list of insurance parts we can create a insurance part. In the list of insurances we create the insurance part in the first one
Expected	<div> <h3>Edit InsurancePart</h3> <p>Date of the incident <input type="text" value="2019/05/01"/></p> <p>Description <input type="text" value="test"/></p> <p>Attachment <input type="text" value="http://test"/></p> <p> <input type="button" value="Save"/> <input type="button" value="Cancel"/> </p> </div>
Outcome	Correct.
Notes	

Test <#007>	
Description	In the list of insurance parts we can create a insurance part. In the list of insurances we create the insurance part in the first one
Expected	<div> <h2>Edit InsurancePart</h2> <p>Date of the incident <input type="text" value="2019/05/01"/></p> <p>Description <input type="text" value="test"/></p> <p>Attachment <input type="text" value="http://test"/></p> <p>Save Cancel</p> </div>
Outcome	Correct.
Notes	We also can delete it after create

Test <#008>	
Description	In the list of insurance parts we can create a insurance part. In the list of insurances we create the insurance part in the first one
Expected	<div> <p>We can't create with an future date and without description and attachment</p> <h2>Edit InsurancePart</h2> <p>Date of the incident <input type="text" value="2019/05/31"/> <b>Must be in the past</b></p> <p>Description <input type="text"/> <b>Must not be blank</b></p> <p>Attachment <input type="text"/> <b>Must not be blank</b></p> <p>Save Delete Cancel</p> <p><b>Cannot commit operation!</b></p> </div>

Outcome	There is no error message next to attachment.
Notes	

Test <#009>	
Description	In the list of insurance parts we can create a insurance part. In the list of insurances we create the insurance part in the first one
Expected	We can't create with a non url attachment
	
Outcome	Correct.
Notes	

## Use case UC33-1 List insurances parts unassigned

### Description

An actor who authenticates as an expert must be able to List the insurance parts that no expert has self-assigned and self-assign one of them.

### Access

First we authenticate ourselves as 'expert', (user=expert1, password=expert1). In the navigation bar we push "Insurances parts". This new view will show you a list of the insurance that I aren't unassigned.

## Tests

Notes																																					

## Use case UC33-3 Write a report

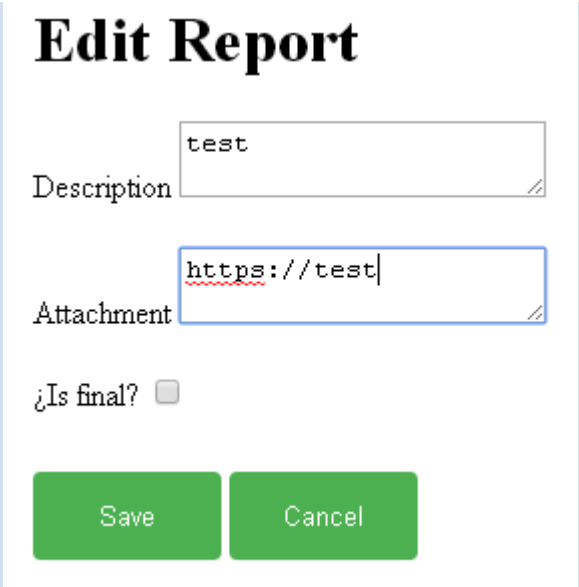

### Description

An actor who authenticates as an expert must be able to Write a report regarding any of the insurance parts that he or she's self-assigned. Note that he or she must be able to update or delete the insurance part as long as he or she doesn't save it in final mode. Note too, that the corresponding client and company cannot see the report until it's saved in final mode.

### Access

First we authenticate ourselves as 'expert', (user=expert1, password=expert1). In the navigation bar we push "Insurances parts". This new view will show you a list of the insurance parts that aren't assigned.

### Tests

Test <#001>	
Description	In the page to list unassigned insurance parts we will see 2 insurance parts. Let's create a report on the first one.
Expected	
Outcome	Correct.
Notes	Note that we save as not final mode so we can edit or delete the report.

Test <#002>	
Description	In the page to list unassigned insurance parts we will see 2 insurance parts. Let's create a report on the first one.
Expected	We can't save without description

<div> <h2>Edit Report</h2> <div> <div>Description</div> <input type="text"/> <div>Must not be blank</div> </div> <div> <div>Attachment</div> <input type="text"/> <div>Must not be blank</div> </div> <div> <div>Is final?</div> <input type="checkbox"/> </div> <div> <div>Save</div> <div>Delete</div> <div>Cancel</div> </div> <div>Cannot commit operation!</div> </div>	
Outcome	There is no error message next to Attachment if it is blank, I can save it without attachment.
Notes	

Test <#003>	
Description	In the page to list unassigned insurance parts we will see 2 insurance parts. Let's create a report on the first one.
Expected	<div> <div>We can't save with and non url attachment</div> <div> <h2>Edit Report</h2> <div> <div>Description</div> <input type="text" value="test"/> </div> <div> <div>Attachment</div> <input type="text" value="test"/> <div>Invalid URL</div> </div> <div> <div>Is final?</div> <input type="checkbox"/> </div> <div> <div>Save</div> <div>Delete</div> <div>Cancel</div> </div> <div>Cannot commit operation!</div> </div> </div>
Outcome	Correct.
Notes	

## Use case UC 34 Curricula (B-Level)

### Description

An actor who is authenticated as a worker must be able to manage his or her curricula, which includes listing, showing, creating, updating, and deleting them.

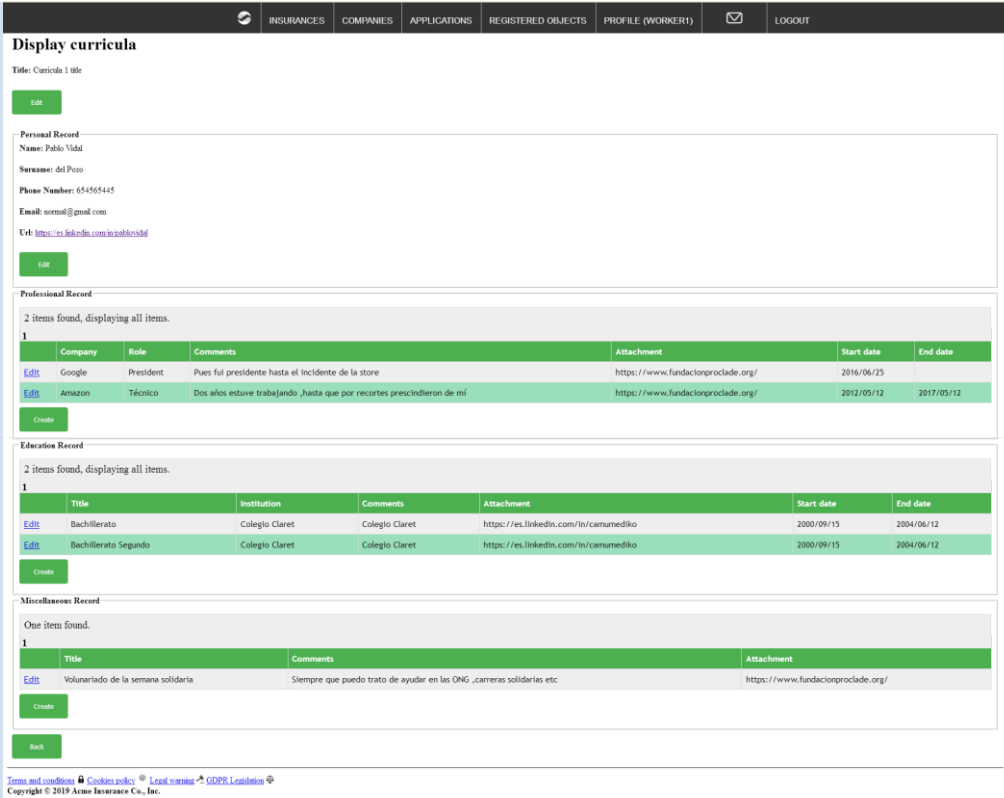

### Access

First we authenticate ourselves as 'worker', (user=worker1, password=worker1). In the navigation bar we push "PROFILE > CURRICULA". This new view will show you a list of the curricula that the worker1 has.

### Test

Test <#01>													
Description	Try listing curricula. When you click on 'Curricula', it will show us a list with all the curricula of worker1.												
Expected	<p>The list should look like this:</p> <div><div>List curricula</div><div>3 items found, displaying all items.</div><div>1</div><table><tr><th></th><th>Title</th><th></th></tr><tr><td><a href="#">Display</a></td><td>Curricula 1 title</td><td><a href="#">Delete</a></td></tr><tr><td><a href="#">Display</a></td><td>Curricula 2 title</td><td><a href="#">Delete</a></td></tr><tr><td><a href="#">Display</a></td><td>Curricula 3 title</td><td><a href="#">Delete</a></td></tr></table><div>Create</div></div>		Title		<a href="#">Display</a>	Curricula 1 title	<a href="#">Delete</a>	<a href="#">Display</a>	Curricula 2 title	<a href="#">Delete</a>	<a href="#">Display</a>	Curricula 3 title	<a href="#">Delete</a>
	Title												
<a href="#">Display</a>	Curricula 1 title	<a href="#">Delete</a>											
<a href="#">Display</a>	Curricula 2 title	<a href="#">Delete</a>											
<a href="#">Display</a>	Curricula 3 title	<a href="#">Delete</a>											
Outcome	Correct.												
Notes													

Test <#02>	
Description	Try showing your curricula When clicking on 'Curricula', it will show us a list with all the curricula of the "worker1", to show one we must click on the link called 'Display'. In this test we are going to show the first curriculum by clicking on its 'Display' link.
Expected	The details that you must show of that curriculum are the following:

	
	<p>Correct.</p>
Outcome	Correct.
Notes	Within each curriculum we can manage all possible records, such as personal record, work experience, studies and courses and miscellaneous data.

Test <#03>	
Description	Try creating a curricula. When you click on Curricula, the button "create" redirects us to a page where we will edit the title of our new curricula. In this case we will leave the field empty and save
Expected	<p>The information is not saved and all validation errors are reported in the form view itself.</p> <ul style="list-style-type: none"> <li>- Text fields where it appears 'Must not be blank' is that this field has left it unfilled and should be filled.</li> </ul> <div data-bbox="411 1523 1418 1917">  </div>
Outcome	Correct.
Notes	

#### Test <#04>

##### Description

Try creating a curricula. Now we will introduce a title for our new Curriculum:  
Title: TEST

## Edit curricula

Title TEST

Save

Cancel

We press the save button and it will redirect us to the form where we can edit our personal data. **By default the form is already filled with the fields of information of the actor that is logged** but they can be changed in this view.

## Edit Personal record

Name Amelia

Surname Alarcón

Phone Number +34(688)775654789

Email spo7o2@gmail.com

Linkedin profile https://www.linkedin.com/

Save

Cancel

We press the button 'Save'

##### Expected

The information is saved and redirects us to the page that shows the curriculum.

## Display curricula

Title: TEST

Edit

### Personal Record

Name: Amelia

Surname: Alarcón

Phone Number: +34(688)775654789

Email: spo7o2@gmail.com

Url: <https://www.linkedin.com/>

Edit

### Professional Record

Nothing found to display.

Create

### Education Record

Nothing found to display.

Create

### Miscellaneous Record

Nothing found to display.

Create

Back

Outcome

Correct.

Notes

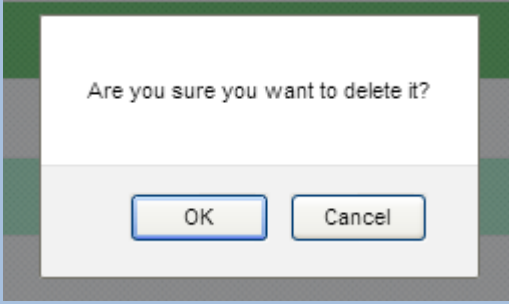

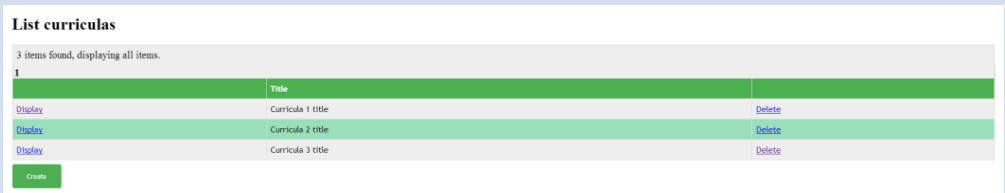

Test <#04>

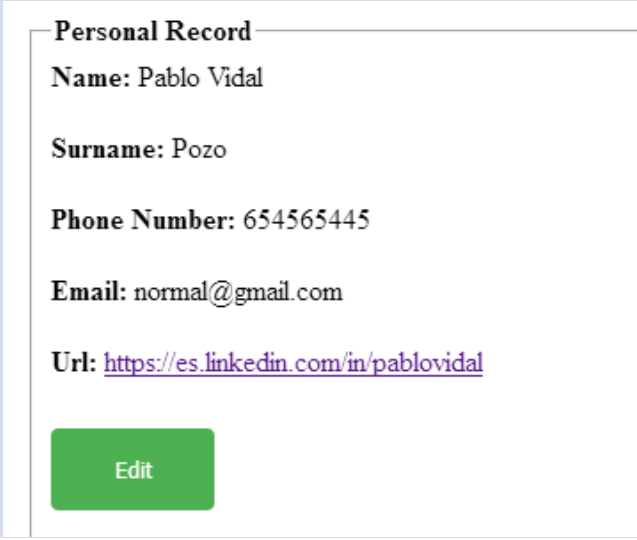

Description

Try erasing a curricula. By clicking on 'Curricula', in the list of curricula we can see to the right of each one a link to delete it.

We are going to delete the curriculum that we have just created. The one called TEST.

It will ask us if we are sure we want to delete it, we press the button 'Ok'.

	
Expected	<p>The information is deleted and redirects us to the list in which we can see that the curricula we had created is no longer found.</p> 
Outcome	Correct.
Notes	

<b>Test &lt;#05&gt;</b>	
Description	<p>Try editing an existing curricula. When you click on Curriculum, click on the button 'Show' of the first curriculum, we will edit your personal record, specifically the surname. To do so, click on the 'Edit' button located in the 'Personal Record' section.</p> <p>Let's leave the Surname field with only the second word "Pozo", and click on the save button.</p>
Expected	<p>The system redirects us back to the curricula view where we can check that the surname field of the personal data has been modified.</p> 
Outcome	Correct.
Notes	

## Use case UC35-1 List insurances parts Company

### Description

An actor who authenticates as an expert must be able to List the insurance parts that he or she has self-assigned.

### Access

First we authenticate ourselves as 'company', (user=company1, password=company1). In the navigation bar we push “my insurances parts”. This new view will show you a list of the insurance parts of my insurances.

### Tests

	Insurance Part	<input type="text" value="2977"/>
	Expert	<input type="text" value="Rafael"/>
	<input type="button" value="Back"/>	
Outcome	Correct.	
Notes		

## Use case UC36-1 Register as expert (C-Level)

### Description

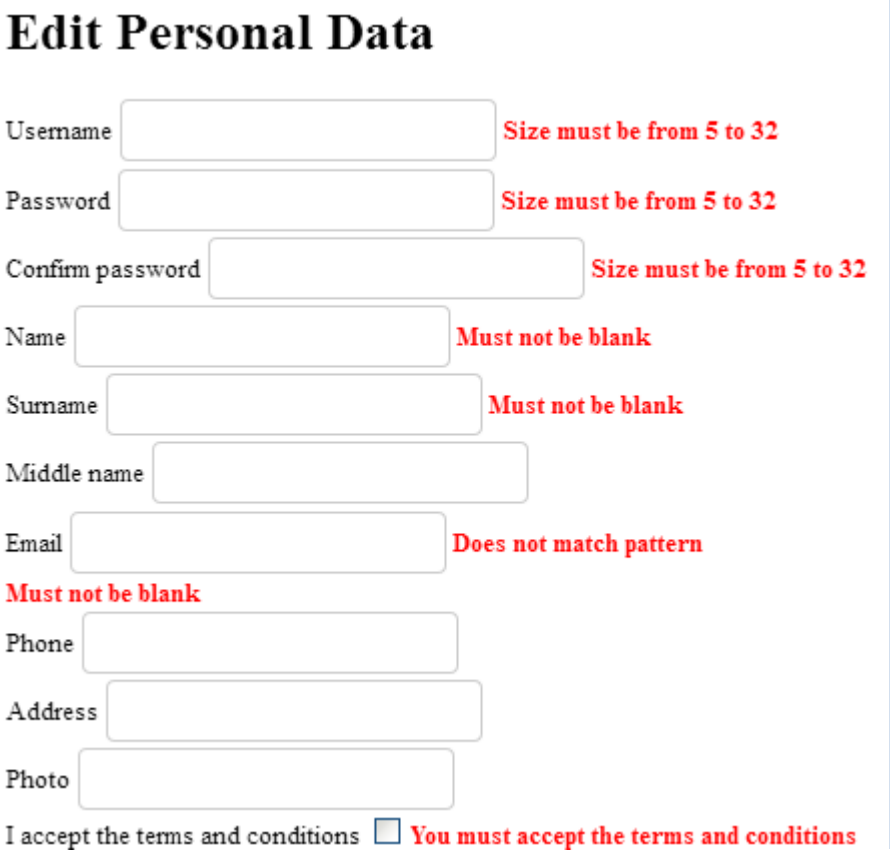

An actor who is authenticated as an administrator must be able to create new user accounts for new experts.

### Access

We log in the system as administrators and then, we select the option "REGISTER EXPERT" in the drop-down menu of the option "ADMINISTRATOR CONTROLS" available in the menu.

### Tests

Test <#001>	
Description	A user logged in as administrator tries to register an expert using a blank form. We can use the administrator "admin1/admin1"

Expected	<p>The form shows the following errors</p>  <p><b>Edit Personal Data</b></p> <p>Username <input type="text"/> Size must be from 5 to 32</p> <p>Password <input type="password"/> Size must be from 5 to 32</p> <p>Confirm password <input type="password"/> Size must be from 5 to 32</p> <p>Name <input type="text"/> Must not be blank</p> <p>Surname <input type="text"/> Must not be blank</p> <p>Middle name <input type="text"/></p> <p>Email <input type="text"/> Does not match pattern Must not be blank</p> <p>Phone <input type="text"/></p> <p>Address <input type="text"/></p> <p>Photo <input type="text"/></p> <p>I accept the terms and conditions <input type="checkbox"/> You must accept the terms and conditions</p>
Outcome	Correct.
Notes	

Test <#002>	
Description	A user logged in as administrator tries to register an expert successfully, giving the following data

	<h2>Edit Personal Data</h2> <p>Username <input type="text" value="expert10"/></p> <p>Password <input type="password" value="expert10"/></p> <p>Confirm password <input type="password" value="expert10"/></p> <p>Name <input type="text" value="expert10"/></p> <p>Surname <input type="text" value="expert10"/></p> <p>Middle name <input type="text" value="expert10"/></p> <p>Email <input type="text" value="expert10@gmail.com"/></p> <p>Phone <input type="text" value="+34(688)6656"/></p> <p>Address <input type="text"/></p> <p>Photo <input type="text"/></p> <p>I accept the terms and conditions <input checked="" type="checkbox"/></p>
<b>Expected</b>	Where the “password” and “confirm password” fields are both “expert10” The user has been registered successfully. We can log in the system using the new user.
<b>Outcome</b>	Correct.
<b>Notes</b>	

## Use case UC36-2 Launch a process that flags the actors of the system as spammers or not-spammers.

### Description

An actor who authenticates as an administrator must be able to launch a process that signals system actors as spammers or non-spammers. A user is considered to be a spammer if at least one of the messages he or she sends contains at least one spam word.

### Access

First we authenticate ourselves as 'administrator', (user=admin1, password=admin1). Press Main Menu>List of suspicious actors. It will show us a button called 'Generate spammers actors'.

## Tests

Test <#001>																
Description	A list like the following should be shown at the beginning, when the button is pressed															
Expected	<div>When you press the button you have to show us a list like this: <div>Listado de actores sospechosos o baneados 2 registros encontrados, mostrando todos los registros. 1 <table><tr><th>Hombre</th><th>Apellidos</th><th>Rol</th><th>Correo electrónico</th><th></th></tr><tr><td>Laura</td><td>Alarcón</td><td>[WORKER]</td><td>spknjjo@gmail.com</td><td><a href="#">Banear</a></td></tr><tr><td>Pablo</td><td>Pino</td><td>[CLIENT]</td><td>Sinpinosno@gmail.com</td><td><a href="#">Banear</a></td></tr></table><div>Generar actores spamme</div></div></div>	Hombre	Apellidos	Rol	Correo electrónico		Laura	Alarcón	[WORKER]	spknjjo@gmail.com	<a href="#">Banear</a>	Pablo	Pino	[CLIENT]	Sinpinosno@gmail.com	<a href="#">Banear</a>
Hombre	Apellidos	Rol	Correo electrónico													
Laura	Alarcón	[WORKER]	spknjjo@gmail.com	<a href="#">Banear</a>												
Pablo	Pino	[CLIENT]	Sinpinosno@gmail.com	<a href="#">Banear</a>												
Outcome	Correct.															
Notes	These results come out at the start of the application, if there are changes later the results could be different from those shown.															

Test <#002>																					
Description	<p>We log in as admin1, we log in as user:'expert1' and password:'expert1'. We go to Profile(expert1)&gt;Send message, and fill in the form as follows: Subject: 'sex', Body: 'sex', Receiver: 'Pablo', Tag:'sex' Then the 'Send' button. We log in as 'expert1' and log in again as 'admin1', enter the 'List of suspicious actors' and press the 'Generate actors' button.</p>																				
Expected	<p>When you press the button you have to show us a list like this:</p> <div><p><b>Listado de actores sospechosos o baneados</b></p><p>3 registros encontrados, mostrando todos los registros.</p><p>1</p><table><tr><th>Nombre</th><th>Apellidos</th><th>Rol</th><th>Correo electrónico</th><th></th></tr><tr><td>Laura</td><td>Alarcón</td><td>[WORKER]</td><td>spknjjo@gmail.com</td><td><a href="#">Banear</a></td></tr><tr><td>Rafael</td><td>Martínez</td><td>[EXPERT]</td><td>SoyUnExperto@gmail.com</td><td><a href="#">Banear</a></td></tr><tr><td>Pablo</td><td>Pino</td><td>[CLIENT]</td><td>Sinpinosno@gmail.com</td><td><a href="#">Banear</a></td></tr></table><p><a href="#">Generar actores spamme</a></p></div>	Nombre	Apellidos	Rol	Correo electrónico		Laura	Alarcón	[WORKER]	spknjjo@gmail.com	<a href="#">Banear</a>	Rafael	Martínez	[EXPERT]	SoyUnExperto@gmail.com	<a href="#">Banear</a>	Pablo	Pino	[CLIENT]	Sinpinosno@gmail.com	<a href="#">Banear</a>
Nombre	Apellidos	Rol	Correo electrónico																		
Laura	Alarcón	[WORKER]	spknjjo@gmail.com	<a href="#">Banear</a>

Pablo	Pino	[CLIENT]	Sinpinosno@gmail.com	<a href="#">Banear</a>																	
Outcome	Not working, when I send the message, the system shows this view:																				

	<div>  INSURANCESCOMPANIESMY REPORTSINSURANCE PARTSPROFILE (EXPERT1) </div> <div> en   es </div> <div> <h2>List messages</h2> <p>Nothing found to display.</p> </div>
	<p>The subject and body were “sex”. When pressing the “Generate spammers actors” button, expert1 does not appear. I think that the button may work, but the message was not created.</p>
Notes	<p>When you send expert1,a message with a spam word, the list that returns the button 'Generate spammers actors' is updated by adding expert1 whose name is 'Rafael'.</p>

## Use case UC36-3 Ban an actor with the spammer flag

### Description

An actor who authenticates as an administrator must be able to ban a spammer from the system.

### Access

First we authenticate ourselves as 'administrator', (user=admin1, password=admin1). In the navigation bar . This new view will show you a list of the actors that are considered spammers, we can also see a button called 'Generate spammers actors'.

### Tests

Test <#001>																
Description	<p>In the page to list suspicious actors we will see a couple of actors already marked as a suspicious actor.</p>															
Expected	<p>Let's ban the worker Laura, click on the button "Ban" and should change to "unban this actor".</p> <div><p><b>List of suspicious actors or banned</b></p><p>2 items found, displaying all items.</p><p>1</p><table><tr><th>Name</th><th>Surname</th><th>Role</th><th>Email</th><th></th></tr><tr><td>Laura</td><td>Alarcón</td><td>[WORKER]</td><td>spk1joll@gmail.com</td><td><a href="#">Unban this actor</a></td></tr><tr><td>Pablo</td><td>Pino</td><td>[CLIENT]</td><td>Stipinosord@gmail.com</td><td><a href="#">Ban</a></td></tr></table><p><a href="#">Generate spammers actors</a></p></div> <p>now when trying to login as that worker (User: worker2 , password: worker2), should not let us access the system.</p>	Name	Surname	Role	Email		Laura	Alarcón	[WORKER]	spk1joll@gmail.com	<a href="#">Unban this actor</a>	Pablo	Pino	[CLIENT]	Stipinosord@gmail.com	<a href="#">Ban</a>
Name	Surname	Role	Email													
Laura	Alarcón	[WORKER]	spk1joll@gmail.com	<a href="#">Unban this actor</a>												
Pablo	Pino	[CLIENT]	Stipinosord@gmail.com	<a href="#">Ban</a>												

	<b>Login</b>
	User name: <input type="text"/>
	Password: <input type="password"/>
	<b>Your user name or password is wrong!</b>
	<input type="button" value="Login"/>
<b>Outcome</b>	Correct.
<b>Notes</b>	

## Use case UC36-4 UnBan an actor previously banned

### Description

An actor who authenticates as an administrator must be able to unban an actor who is previously banned

### Access

First we authenticate ourselves as 'administrator', (user=admin1, password=admin1). In the navigation bar . This new view will show you a list of the actors that are considered spammers, we can also see a button called 'Generate spammers actors'.

### Tests

Test <#001>																
Description	In the page to list suspicious actors we will see a couple of actors already marked as a suspicious actor.															
Expected	<p>Let's unban the worker Laura, click on the button "unban this actor" and should change to "Ban".</p> <div><p><b>List of suspicious actors or banned</b></p><p>2 items found, displaying all items.</p><p>1</p><table><tr><th>Name</th><th>Surname</th><th>Role</th><th>Email</th><th></th></tr><tr><td>Laura</td><td>Alarcón</td><td>[WORKER]</td><td>spknjjo@gmail.com</td><td><a href="#">Unban this actor</a></td></tr><tr><td>Pablo</td><td>Pino</td><td>[CLIENT]</td><td>Sirpinosno@gmail.com</td><td><a href="#">Ban</a></td></tr></table><p><a href="#">Generate suspicious actors</a></p></div> <p>now when trying to login as that worker (User: worker2 , password: worker2),the system let us access the system.</p>	Name	Surname	Role	Email		Laura	Alarcón	[WORKER]	spknjjo@gmail.com	<a href="#">Unban this actor</a>	Pablo	Pino	[CLIENT]	Sirpinosno@gmail.com	<a href="#">Ban</a>
Name	Surname	Role	Email													
Laura	Alarcón	[WORKER]	spknjjo@gmail.com	<a href="#">Unban this actor</a>												
Pablo	Pino	[CLIENT]	Sirpinosno@gmail.com	<a href="#">Ban</a>												
Outcome	Correct.															
Notes	If the banning test has not been performed first, the worker "Laura" will not be banned. so we'll have to ban it first so we can unban it.															

## Use case UC36-5 Display dashboard (B-Level)

### Description

An actor who authenticates as an administrator must be able to display a dashboard with the following information:

- 36.5.1. The minimum, the maximum, the average, and the standard deviation of the number of insurance parts per insurance.
- 36.5.2. The minimum, the maximum, the average, and the standard deviation of the number of reports per expert.
- 36.5.3. The ratio of insurances with a insurance part.
- 36.5.4. The top-three companies in terms of insuranceparts.
- 36.5.5. The top-three clients in terms of insuranceparts.
- 36.5.6. The insurance expert with more reports

### Access

First we authenticate ourselves as 'administrator', (user=admin1, password=admin1). Press Main Menu>Control Panel. It will show us different information about the data registered in the system.

### Tests

Test <#001>	
Description	We are navigating in the board to see the information already mentioned, which will appear in the same descending order.
Expected	<p>The minimum, the maximum, the average, and the standard deviation of the number of insurance parts per insurance</p> <div><p>The minimum, the maximum, the average, and the standard deviation of the number of insurance parts per insurance.</p><p>Average: 0.27</p><p>Maximum: 3.00</p><p>Minimum: 0.00</p><p>standard deviation: 0.77</p></div> <p>The minimum, the maximum, the average, and the standard deviation of the number of reports per expert.</p> <div><p>The minimum, the maximum, the average, and the standard deviation of the number of reports per expert.</p><p>Average: 1.00</p><p>Maximum: 3.00</p><p>Minimum: 0.00</p><p>standard deviation: 1.41</p></div> <p>The ratio of insurances with a insurance part.</p> <div><p>The ratio of insurances with a insurance part.</p><p>Ratio: 0.13</p></div> <p>The top-three companies in terms of insuranceparts.</p>

	<div> <div>The top-three companies in terms of insurance parts</div> <div> 2 items found, displaying all items. 1 </div> <div> <div>Companies</div> <div>Seguros Adelas S.L</div> <div>Caser Seguros S.C</div> </div> </div>
	<div> <div>The top-three clients in terms of insurance parts</div> <div> 2 items found, displaying all items. 1 </div> <div> <div>Clients</div> <div>Pablo</div> <div>Daniel</div> </div> </div>
	<div> <div>The insurance expert with more reports</div> <div> One item found. 1 </div> <div> <div>Experts</div> <div>Rafael</div> </div> </div>
Outcome	Correct, but the values are not the same.
Notes	These results come out at the start of the application, if there are changes later the results could be different from those shown.

## Use case UC43-1 Register as sponsor (C-Level)

### Description

An actor who is not authenticated must be able to register himself/herself as sponsor.

### Access

We select the option “REGISTER SPONSOR” in the drop-down menu of the option “REGISTER” available in the menu.

### Tests

Test <#001>	
Description	A user who is not logged in the system tries to register himself/herself as an sponsor using a blank form.
Expected	The form shows the following errors

<h2>Edit Personal Data</h2> <p> Username <input type="text"/> Size must be from 5 to 32  Password <input type="text"/> Size must be from 5 to 32  Confirm password <input type="text"/> Size must be from 5 to 32  Name <input type="text"/> Must not be blank  Surname <input type="text"/> Must not be blank  Middle name <input type="text"/>  Email <input type="text"/> Does not match pattern  Must not be blank  Phone <input type="text"/>  Address <input type="text"/>  Photo <input type="text"/>  I accept the terms and conditions <input type="checkbox"/> You must accept the terms and conditions </p>	
Outcome	Correct.
Notes	

Test <#002>	
Description	<p>A user who is not logged in the system registers himself/herself as an sponsor successfully, giving the following data</p> <div> <h3>Edit Personal Data</h3> <p> Username <input type="text" value="patrocinador10"/>  Password <input type="password" value="....."/>  Confirm password <input type="password" value="....."/>  Name <input type="text" value="patrocinador10"/>  Surname <input type="text" value="patrocinador10"/>  Middle name <input type="text" value="patrocinador10"/>  Email <input type="text" value="patrocinador10@gmail.com"/>  Phone <input type="text"/>  Address <input type="text"/>  Photo <input type="text"/>  I accept the terms and conditions <input checked="" type="checkbox"/> </p> </div>
Expected	Where the “password” and “confirm password” fields are both “patrocinador10” The user has been registered successfully. We can log in the system using the new user.
Outcome	Correct.
Notes	

## Use case UC44 Finder (A-Level)

### Description

An actor who is authenticated as a client must be able to change the filters of his or her finder, display the insurances in his or her finder and update, listing their results and clean their finder.

### Access

First we authenticate ourselves as 'client', (user=client1, password=client1). Press Main Menu>Finder>Update your finder or Menu>Finder>Results of your finder.

### Tests

Test <#001>	
Description	Update your finder. Search "premium" as keyword, press save and go to Results of your finder.
Expected	Should look like the following:

## Use case UC45 Sponsorship (A-Level)

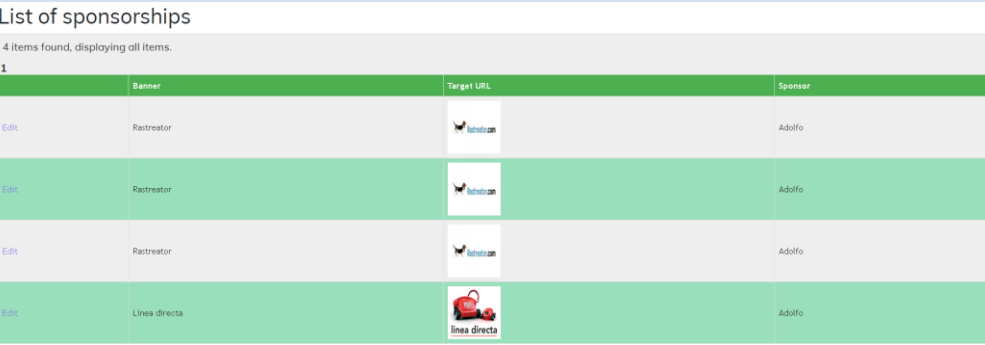

### Description

An actor who is authenticated as a sponsor must be able to manage his or her sponsorships, which includes listing, showing, creating, updating, and deleting them

### Access

First we authenticate ourselves as ‘sponsor’, (user=sponsor1, password=sponsor1). Press Main Menu>Sponsorships.

### Tests

<b>Test &lt;#001&gt;</b>	
<b>Description</b>	Test that list as photo below
<b>Expected</b>	<p>The list shown should look like the following:</p> 
<b>Outcome</b>	Correct.
<b>Notes</b>	

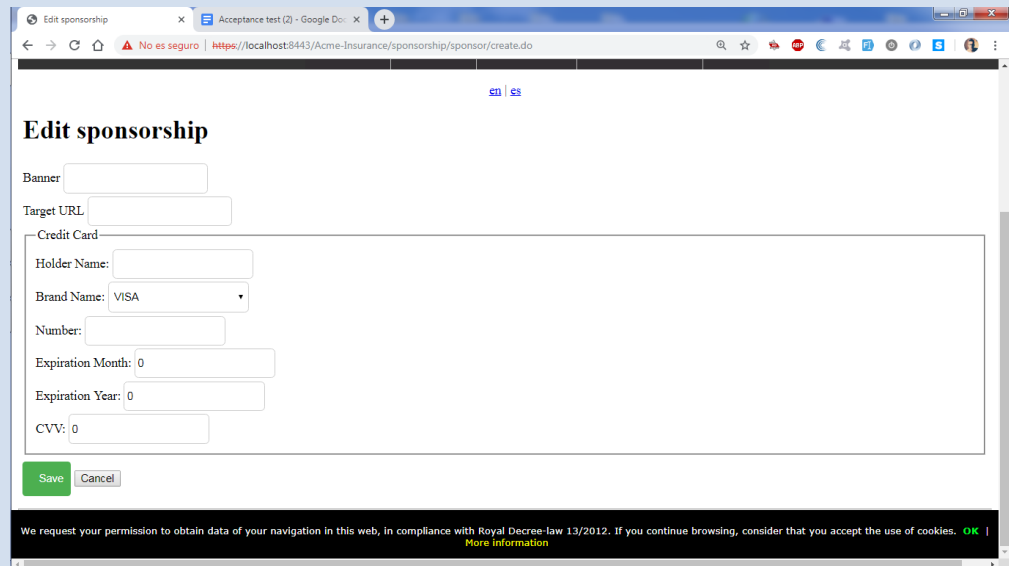

### Test <#002>

#### Description

Press on the link “Create sponsorship”

#### Expected

Should look like the following:

The screenshot shows a web browser window with the URL <https://localhost:8443/Acme-Insurance/sponsorship/sponsor/create.do>. The page title is "Edit sponsorship". The form contains the following fields:

- Banner:
- Target URL:
- Credit Card section:
  - Holder Name:
  - Brand Name:
  - Number:
  - Expiration Month:
  - Expiration Year:
  - CVV:

At the bottom of the form are two buttons: "Save" (green) and "Cancel" (grey). A cookie consent banner is at the bottom of the browser window.

#### Outcome

Correct.

#### Notes

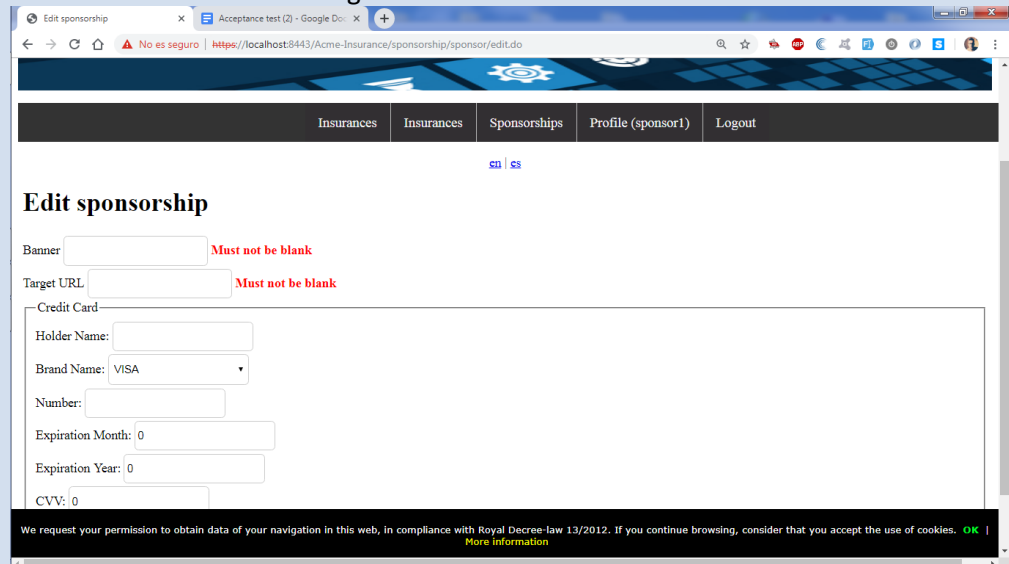

### Test <#003>

#### Description

In the same window press “save” with empty values.

#### Expected

Should look like the following:

The screenshot shows a web browser window with the URL <https://localhost:8443/Acme-Insurance/sponsorship/sponsor/edit.do>. The page title is "Edit sponsorship". The form contains the following fields:

- Banner:  Must not be blank
- Target URL:  Must not be blank

## Additional tests

If necessary, design additional tests that cannot be easily associated with a particular use case. Describe them in this section.

Test <#999>

<b>Description</b>	Describe the test that must be performed. For instance, "Change the language to Spanish".
<b>Expected</b>	Describe what you expect from this test. Include screenshots if necessary. For instance, "Every message displayed by the system must be in Spanish".
<b>Outcome</b>	Describe what you've got when you performed this test. Add screenshots if necessary. Please, make sure that your description is enough for a developer to repeat what you've done, so that he or she can correct the problem. For instance, "Option 'Register' in the main menu was not properly translated into Spanish. The system displays it in English".
<b>Notes</b>	Add notes if necessary.
